Vyas, 2020-02-06 The Bhagavad Gita or Song of God is one of the most revered of Hindu manuscripts While many believers date the text to over 5 000 years ago some debate exists concerning its actual age Originally written in Sanskrit the earliest English translation was written in 1785 with the oral version of the manuscript believed by some to have been composed around 3100 B C E The Western view is that the manuscript is much newer nevertheless it is considered by all to be an ancient text and one with a powerful influence on Hindus and others **A Lean Mind** Ozan Kulcu, 2020-12-07 The concept of lean is something Ozan Kulcu has used intensively in his work as an engineer and he believes that it has enormous power to increase the efficiency In A Lean Mind Kulcu gives an approach of how the concept of lean can transform the mind When the mind becomes lean it runs free of each brick attached to it bricks ranging from harmful core beliefs to useless thoughts The mind becomes ordered and clean it runs more efficiently and it enables us to reach our true potential one that we never recognized before The lean mind is a mind that is free of distraction It is a mind that filters out the background noise It is a mind where everything that matters is

ordered nicely for us to reach anytime It is also the mind where we know exactly what emotions and belief patterns we have and we know exactly how to shift our mental state to use more of its potential A Lean Mind is full of ideas that enable this lean approach to unleash the true potential of the mind It is a deep dive into our own minds the universe and life in general A Lean Mind focuses on Embracing our position in the universe Separating what actually matters from noise Recognizing our perception of life Understanding the mind process Digging deep into the emotional zones and emotions and how to shift the mental state Understanding mind body feedback system Understanding perception in interactions Understanding the lean approach to manage the mind process Becoming aware of the mind and the body Embracing the presence of our soul Understanding the importance of balance in the universe and in the mind From Back Cover What is the difference between the sunrise of today and the sunrise of tomorrow Why does the same sunrise with same shape size and warmth give us different feelings sometimes What makes the differences each day What we feel everytime we see the sunrise depends on what emotions are in the mind at that moment not at the sunrise And these emotions make the differences of the day The emotional state of mind linked to certain core beliefs are the main raw materials of this manufacturing plant called the mind They produce thoughts night and day and eventually lead to actions Everything we experience in life is a product of this mind process The mind makes the difference between the sunrise of today and sunrise of tomorrow We are stuck with our minds for the rest of our lives Therefore a mind is worth managing A lean mind has the power to transform a sunrise into limitless amount of possibilities We just need to know how it works and how to improve the processes A Lean Mind is a deep dive into how our minds work how to understand it better and how to improve the processes to reach a balanced state of mind As everything we experience is a product of the mind this balanced state of mind will unleash the potential of life for us
