Managing US Soviet Rivalry Problems Of Crisis Prevention:

Managing U.s.-soviet Rivalry Alexander L. George, 2019-03-04 This book examines the lessons of the U S Soviet experiment with detente in the 1970s with particular attention to the effort to develop a basis for cooperating in crisis prevention It provides a reconceptualization of the problem of moderating U S Soviet rivalry Opportunities and Dangers of Soviet-Cuban Expansion Richard J. Payne, 1988-01-01 Combined with aggressive rhetoric and ideological hostility the conventional approach to crisis resolution generates only military options and diminishes our prospects for less dangerous solutions This book explains how a workable pragmatic and efficient foreign policy in relation to Soviet Cuban activities in the Third World can evolve through negotiation that de emphasizes ideology The focus is on problems within less developed countries problems that provide opportunities for Soviet Cuban involvement The book examines several Third World conflicts in which the Soviet Union and Cuba are involved The Horn of Africa Afghanistan Nicaragua Southern Africa and the Commonwealth Caribbean and suggests a pragmatic policy tailored to each regional conflict An objective assessment of Soviet Cuban activities discovers opportunities for cooperation and mutual restraint *Learning In U.s. And Soviet Foreign Policy* George Breslauer, 2019-03-07 Are policymakers capable of learning about the complex international environment they must deal with when formulating foreign policy Interest in the phenomenon of learning has been growing driven in part by the advent of Gorbachev and by prospects for ending the Cold War In this book leading scholars explore the theoretical and practical imp **When Opponents Cooperate** Benjamin Miller, 2002 A multilevel theory of international relations that accounts for intended and unintended outcomes of cooperation and conflict **Cold War as Cooperation** Roger E. Kanet, Edward A. Kolodziej, 1991-06-18 A study of superpower co operation since World War II this book examines the regulation of USA USSR rivalry and outlines the power of regional states to constrain and manipulate them for their own interests *Shaping U.S. Military Forces for the Asia-Pacific* Michael R. Kraig, 2014-06-04 The first twenty years of post Cold War US defense and diplomatic policies toward Asia have looked a good deal like the previous 50 namely continued deterrence based upon overwhelming offensive military predominance In East Asia all powers harbor common and divergent interests based on fragmented nationalist identities and complex economic interdependence In this multipolar Asian system new Chinese military capabilities could support both the wish to secure its own interests as well as a more expansive vision for regional leadership which might harbor a destabilizing geopolitical agenda How the United States addresses this reality via military procurements and employment concepts for the Asian theater could either detract from or enhance crisis stability The US defense establishment must reorient its force posture to save money manage conflicts of interest and prevent future interstate crises This analysis provides a framework for how the United States should ideally structure and use military power so as to best support the diplomatic resolution of conflicting interests without resorting to full scale warfare It also critiques the usual Western military focus on offensive strategic predominance in force postures itself often fuelled by the

unrealistic pursuit of the opponent's complete submission via victory in decisive battles *Realism* Benjamin Frankel, 2013-04-03 Realism has been the subject of critical scrutiny for some time and this examination aims to identify and define its strengths and shortcomings making a contribution to the study of international relations **The Geopolitics of Power and Conflict** Jan Nijman, 1993-11-14 Reassesses the history and operation of post war global politics presenting a new and satisfying explanation of how international relations and strategy work Contains a theoretical perspective on superpowers in the international system an original researched investigation of how superpower relations ended during the Cold War and explores current geopolitical change along with the future and adjustment of the U S to the new world order

Competitive Politics and Soviet Foreign Policy Richard Davis Anderson, 1989 **Preventing Violent Conflicts** Peter Wallensteen, 1998 **Slavic Review**, 1985 Coverage of Russian Eurasian and East European issues **South Africa International**, 1983 **U.S. Defense Policy**, 1983 **United States--Soviet Relations** Karl W. Ryavec, 1989 **The Offshore Experiment** William Joseph Belanger, 1986 **American Political Scientists** Glenn H. Utter, Charles Lockhart, 2002-10-30 Numerous experts helped the editors develop this consensus group of the 193 political scientists who have made the most important theoretical contributions over the years with attention to varied approaches and the different subfields *National Security Planning* Michael M. Boll, 1988 *American Foreign Policy in the Nuclear Age* Cecil Van Meter Crabb, Cecil V. Crabb (Jr.), 1988 **The Middle East from the Iran-Contra Affair to the Intifada** Robert Owen Freedman, 1991 This challenging new book examines Middle East developments from three different levels extraregional forces the United States the Soviet Union and Western Europe regional politics intra Arab relations the Arab Israeli conflict and the Iran Iraq war and local politics Jordan Israel the Palestinians Syria Egypt Lebanon Turkey and the Sudan It thus provides readers with a multidimensional view of Middle Eastern politics in an increasingly turbulent period **Journal of South Asian and Middle Eastern Studies**, 1993
