*Orion's Highway Across the Galaxy* Charles E. Anzalone, 2012-08-17 The book titled Orion's Highway Across the Galaxy is about an alien from a distant planet assigned to help mankind by making specific individuals in the past become famous His name is Enoch and he is a distant cousin of the human race Gifted with certain skills he is able to help Nostradamus Mozart and Dr Christiaan Barnard gain the recognition that they richly deserved The following is a quote from Enoch as he summarizes his life Nostradamus Mozart and Dr Barnard all these men with different personalities were the ones that I helped in the corresponding years 1513 1756 and 1962 Mozart lived for only thirty five years because of the drugs he received as a baby causing his brain to deform For every bad thing there is a good thing his contribution was the brilliance of his music that he left for society When I recall the three Earthlings that I guided toward recognition I concede that their beginnings were apt to be shadowy So it is with great men trying to find their beginnings with their inner skills that are undeveloped Most critics then and now still debate the success of their accomplishments with doubt and jealousy and yet wishing that they could achieve fame themselves The plain and inescapable truth is that these men struggled with a desire that motivated them and in the absence of eyewitnesses no one was there to see me rally them on I gave them inspiration and the ability to meet their goals Enoch II With a life span of twelve hundred years Enoch is capable of accomplishing many goals set forth by his superiors The only goal that he cannot successfully complete is to make a decision to marry Beena the red haired beauty whom he loves or to marry Brianna the beautiful blond that had his child out of wedlock During Enoch's multiple visits to planet Earth he discovers the mysteries of the universe The following is one of Enoch's discoveries Traveling at Warp 5 we crossed the barrier that separates the two spiral sectors in our galaxy called the Milky Way Beyond the stream of neutrinos on the other side of the barrier I could see the multicolored beacons that our radar illuminated on the monitor screen The green rings and yellow dots in a circular pattern outlined the entrance to Orion's Highway a pathway that led to planet Earth My assignment was to help an individual on Earth to become historically famous an individual whose artistic music skills would calm the soul and quench the fires of war within the hearts of men The individual was my distant cousin and I was about to become my Brother's Keeper Enoch II The story line unravels universal mysteries about the feasibility of space flight at warp speeds a decoding of the Bible that shows when the Great Flood occurred and the purpose of Primitive Time-reckoning Martin Persson Nilsson, 1920 **Sands of Time** Joseph Colwell, 2018-03-15 What would you think if you found evidence of an advanced life form encased in a two hundred million year old sandstone canyon wall This was the problem that Ev Collins had when he found something on a hike in the canyon country of southern Utah Ev a geology professor was pondering whom he could tell and what he could share when the day after his discovery he chanced upon Mida Peterson a doctoral anthropology student from the Mescalero Apache Reservation in New Mexico Ev decided to share his find with Mida who agreed with the life changing implications of this stunning discovery They teamed up for their scientific

investigation of their find Ev quit his job they moved to nearby Torrey Utah and with the aid of Ev s wealthy stepfather set up a cultural center as a cover In secrecy they bring in a retired NASA physicist in excavating the find When they finally enter the buried object they discover a timeless new Earth As you join Ev and Mida in their discoveries of time time travel geology supernatural powers and new life forms you will think of the Colorado Plateau canyon country as more than rocks and beautiful views    **The History of Egypt, from the Earliest Times, Till the Conquest by the Arabs A.D. 640** Samuel Sharpe (Orientalist.),1876    *Harper's Monthly Magazine* ,1912 Important American periodical dating back to 1850
