Os Melhores Contos Portugueses Do Xix:

How Peripheral is the Periphery? Translating Portugal Back and Forth João Ferreira Duarte, Rita Bueno Maia, Marta Pacheco Pinto, 2015-09-18 This volume is a result of the need to reflect upon Portugal's position from the viewpoint of the literary assets imported and exported through translation. It brings together a number of scholars working in the field of Translation Studies directly concerned with the Portuguese cultural system in order to analyse this question from various theoretical perspectives and from case studies of translation flows and movements in Portuguese culture. By Translating Portugal Back and Forth the articles discuss issues such as how can one draw the borderline between a peripheral and a semi peripheral system. Is this borderline useful or necessary? How peripheral is the Portuguese cultural system as far as translation transfers are concerned? How stable or pacific has this positioning been? Does the economic and historical perception of Portugal as peripheral entail that from the viewpoint of translation it would behave similarly? By addressing some of these questions and as shown by the second subtitle Essays in Honour of João Ferreira Duarte the volume pays homage to one of the most prominent Translation Studies scholars in Portugal who has extensively reflected on the binary discourse on translation its metaphors and images. *Os melhores contos portugueses do século XIX* José Viale Moutinho, 2003 A obra reune os melhores contos portugueses escritos do início ao fim do século XIX. Numa coleção que inclui desde narrativas mais tradicionais à literatura fantástica o leitor encontrar textos de autores como Júlio de Almeida, Eça de Queirós e muitos outros. *The Anthology in Portugal* Patricia Anne Odber de Baubeta, 2007 This book breaks new ground in considering the nature and function of anthologies of poetry and short stories in twentieth century Portugal. It tackles the main theoretical issues, identifies a significant body of critical writing on the relationship between anthologies, literary history and the canon, and proposes an approach that might be designated Descriptive Anthology Studies. The author aims to achieve a full understanding of the role of anthologies in the literary polysystem. Moreover this study considers anthologies published in Portugal in the early years of the twentieth century, the influential figures who made them the works they selected and who read them. It also focuses on the principal publishing houses of the 1940s and 50s and how their literary directors shaped public taste and promoted intercultural transfer. The author reveals tensions between conservative nostalgic anthologies that promote an idyllic vision of rural Portugal and collections of poems that question and challenge the status quo whether in respect of the colonial wars or repressed female sexuality. The last part of the book explores anthology production in the period following the Revolution of 1974 observing the co-existence of traditional anthologising activity with new trends and innovations and noting the role of women both as anthologists and anthology items. **Expressão e Linguagem** Janaina Namba, A psicanalista Janaina Namba mostra neste trabalho que investiga, em respeito à expressão e linguagem, que estes são presentes nas primeiras descobertas da clínica e das teorias de Freud e se desenvolvem ao longo de toda a sua obra. Embora Lacan não tenha afirmado o contrário, quem pensa que foi só a partir dele que a linguagem foi abrangida pela psicanálise. Este

livro uma travessia da obra freudiana partindo do rido terreno da tese sobre as afasias e retomando a escrita hieroglifica em A interpretação dos sonhos as minhas em O chiste e sua relação com o inconsciente e a história no mito de Totem e tabu Aspectos da linguagem abordados por Freud são iluminados pelo recurso histórico da Filosofia ao tecer as relações e distinções entre mitos e mitos resgatados na fantasia na arte nos sonhos e na clínica Camila Salles Gonçalves
