Organizing for Power and Empowerment Jacqueline B. Mondros, Scott M. Wilson, 1994 Designed to help build powerful community organizations empower ordinary citizens to become leaders and bring about major social and economic change this book offers a coherent practice based framework for understanding social action with power and empowerment at the center of analysis Topics include recruiting members consensus building leadership publicity and fundraising

Morality as Organizational Practice Sarah May, Stefan Groth, Johannes Möske, 2023 Organizations are increasingly the subject of moral debates The positioning of enterprises of various sizes non governmental organizations or public institutions is discussed and taken as a basis for consumer client and political decisions in a broad scope of topics While the perspectives of customers organizations and further stakeholders on such developments have been highlighted under the label of ethical consumption or vis vis the fragility of organizations the impact and effects on actors working in or for such organizations or subcontractors have so far only been dealt with tangentially or left as a blank spot This volume turns its attention to the actors and organizational practices in order to trace the effects of these discourses on everyday lives Similarly the ethnographic case studies collected in this volume explore the extent to which everyday work life itself shapes discourses on the negotiation of morality in the present

Organizing at the Margins Mahuya Pal, Joëlle Cruz, Debashish Munshi, 2023-06-17 This edited volume presents complex issues surrounding economic and cultural injustices in the global South and the social imaginaries articulated by vulnerable communities in these extractive zones These organizations of struggle by disenfranchised members in the global South bring forth a collective of knowledge to decolonize organizational theory and think of organizing a more just world The essays in this volume critique and connect meanings of organizations in relation to neoliberalism coloniality and social justice More specifically scholars engage with ideas of resistance such as invisible histories in management theory hybrid collective action self determination and indigenous sovereignty and decolonizing institutions The chapters also cover a wide range of locations including feminist movements in Latin America the struggles of Palestinians in self exile to connect with their homeland and reproductive labor in Sri Lanka to the decolonial potential of Black Lives Matter in the US and insights into organizing resistance in parts of Asia and Africa For scholars and policymakers this book presents emancipatory essays that interrogate the cultural social political and historical issues pertaining to organizations in the context of the neoliberal economy

Current Practices in Workplace and Organizational Learning Bente Elkjaer, Maja Marie Lotz, Niels Christian Mossfeldt Nickelsen, 2022-01-01 The central assumption that guides this book is that research and practice about learning at the workplace has recently lost its critical edge This book explores what has happened to workplace learning and organizational learning and studies what has replaced it In addition the book discusses to what extend there are reasons to revitalize it Today themes such as innovation co creation and knowledge sharing seem to have become preferred and referred to as theoretical fields as well as fields of practice In several chapters of this book it is argued

that the critical power of learning could be regained by starting a new discussion of how these new fields of practice can be substantiated by topics such as learning arrangements learning mechanisms and learning strategies Hence the aim of this book is to both advance and recapture our knowledge of learning in today s increasingly complex world of work and organizing The contributions in this work do so by revisiting classic research on workplace and organizational learning and discussing how insights from this body of literature evokes new meaning It sets the stage for new agendas and rethinks current practices that are entangled in activities such as innovation co creation knowledge sharing or other currently widespread fields of practice *Pathological Gambling* Brian Castellani,2000-03-31 Although pathological gambling has

been a field of study and treatment for over forty years its story has remained unwritten That is until now Brian Castellani is the first to write a book on its history and its medicalization Although pathological gambling has been a field of study and treatment for over forty years its story has remained unwritten That is until now Brian Castellani is the first to write a book on its history and its medicalization **Policies and Practices of Cooperative Marketing Associations, Relative to**
