Pruss,Joshua L. Rasmussen,2018-03-01 Necessary Existence breaks ground on one of the deepest questions anyone ever asks why is there anything The classic answer is in terms of a necessary foundation Yet why think that is the correct answer Pruss and Rasmussen present an original defense of the hypothesis that there is a concrete necessary being capable of providing a foundation for the existence of things They offer six main arguments divided into six chapters The first argument is an up to date presentation and assessment of a traditional causal based argument from contingency The next five arguments are new possibility based arguments that make use of twentieth century advances in modal logic The arguments present possible pathways to an intriguing and far reaching conclusion The final chapter answers the most challenging objections to the existence of necessary things Two Arguments for the Identity of Indiscernibles Gonzalo Rodriguez-Pereyra,2022 Gonzalo Rodriguez Pereyra presents two arguments for the principle that no two objects can differ only numerically He shows that the principle cannot be reduced to a triviality and that restricted versions concerning only qualitative properties face problems The Standard Cyclopedia of Horticulture Liberty Hyde Bailey,1919 **Handbook of Practical Botany** Eduard Strasburger,1887 **Index to United States Documents Relating to Foreign Affairs, 1828-1861** Adelaide Rosalia Hasse,1921 **The Fortnightly** ,1918 The History of Belgium: Cæsar to Waterloo Demetrius Charles Boulger,1902 Documents Illustrative of the Formation of the Union of the American States Library of Congress.
