Philosophical Perspectives on Communalism and Morality in African Traditions Polycarp Ikuenobe,2006-01-01 This book examines the idea of communalism in African cultures as a dominant philosophical theme that provides the conceptual foundation for African traditional moral thoughts moral education values beliefs conceptions of reality practices ways of life and the now popular African saying it takes a village to raise a child It defends communalism against various criticisms and argues that when properly understood and harnessed it could provide the necessary foundation for Africa s development

**Life's Ultimate Questions** Ronald H. Nash,2010-08-03 Life s Ultimate Questions is unique among introductory philosophy textbooks By synthesizing three distinct approaches topical historical and worldview conceptual systems it affords students a breadth and depth of perspective previously unavailable in standard introductory texts Part One Six Conceptual Systems explores the philosophies of naturalism Plato Aristotle Plotinus Augustine and Aquinas Part Two Important Problems in Philosophy sheds light on The Law of Noncontradiction Possible Words Epistemology I Whatever Happened to Truth Epistemology II A Tale of Two Systems Epistemology III Reformed Epistemology God I The Existence of God God II The Nature of God Metaphysics Some Questions About Indeterminism Ethics I The Downward Path Ethics II The Upward Path Human Nature The Mind Body Problem and Survival After Death      Inculturation and Postcolonial Discourse in African

Theology Edward P. Antonio,2006 What is inculturation How is it practiced and what is its relationship to colonial and postcolonial discourses In what ways if any does inculturation represent the decolonization of Christianity in Africa This book explores these questions and argues that inculturation is a species of postcolonial discourse by placing it in the larger context of what has now come to be known as Africanism and by showing how the latter and through it inculturation itself fully participates in the history of postcolonial struggles for indigenous self definition in Africa The thirteen contributors to this volume represent a group of young scholars from the southern eastern and western regions of Africa They come from different disciplines theology philosophy and biblical studies Although they take different approaches to the question of inculturation the fact that they engage it at all is illustrative of the methodological significance of inculturation in African theology

**Philosophy in Culture** Tosam, Mbih J.,Takov, Peter,2016-09-13 This book explores the symbiotic relationship between philosophy and culture Every philosophy emerges as a reaction to or as justification for a particular culture and it is for this reason that philosophy may differ from one culture to another It argues that philosophy is an essential part of every culture Philosophy is the means by which every culture provides itself with justification for its values beliefs and worldview and also serves as a catalyst for progress Philosophy critically questions and confronts established beliefs customs practices

and institutions of a society As reflective critical thinking philosophy is linked to a way of life a form of enquiry intended to guide behaviour a form of thinking that sharpens and broadens our intellectual horizon scrutinizes our assumptions and clarifies the beliefs and values by which we live Philosophy helps to liberate the individual from the imprisonment of ignorance prejudice superstition narrow mindedness and the despotism of custom Culture constitutes the raw data the laboratory from which philosophers do their analytic experimentation Culture is considered as philosophy of the first order activity The book maintains that any genuine global philosophy must include philosophical traditions from all cultures and regions of the world as it is by seeking alternative philosophical answers to some of the thorniest problems facing humanity that we are most likely to find more lasting solutions to some global problems In this commitment to a universal humanity we cannot afford to depend on solutions from a single culture or from the most influential cultures

### **Philosophy's Future**

Russell Blackford, Damien Broderick, 2017-04-25 Philosophy's Future The Problem of Philosophical Progress diagnoses the state of philosophy as an academic discipline and calls it to account inviting further reflection and dialogue on its cultural value and capacity for future evolution Offers the most up to date treatment of the intellectual and cultural value of contemporary philosophy from a wide range of perspectives Features contributions from distinguished philosophers such as Frank Jackson Karen Green Timothy Williamson Jessica Wilson and many others Explores the ways philosophical investigations of logic world mind and moral responsibility continue to shape the empirical and theoretical sciences Considers the role of contemporary philosophy in political issues such as women's rights the discrimination of minorities and public health

Cultural Universals and Particulars Kwasi Wiredu, 1996 Wiredu's discussion of culturally defined values and concepts as well as his attention to such timely issues as human rights makes this book invaluable interdisciplinary reading D A Masolo Ghanaian philosopher Kwasi Wiredu confronts the paradox that while Western cultures recoil from claims of universality previously colonized peoples seeking to redefine their identities insist on cultural particularities Wiredu asserts that universals rightly conceived on the basis of our common biological identity are not incompatible with cultural particularities and in fact are what make intercultural communication possible Drawing on aspects of Akan thought that appear to diverge from Western conceptions in the areas of ethics and metaphysics Wiredu calls for a just reappraisal of these disparities free of thought patterns corrupted by a colonial mentality Wiredu's exposition of the principles of African traditional philosophy is not purely theoretical he shows how certain aspects of African political thought may be applied to the practical resolution of some of Africa's most pressing problems
