

A first-person perspective shot of a person's hands holding a rectangular, light-brown cardboard sign. The sign has the words "we need change" written on it in a black, casual, handwritten font. The person's hands are visible, with their forearms showing a dark blue, textured sweater. The background is a blurred city street with many people walking, suggesting a public demonstration or protest. The lighting is soft, and the overall tone is one of social activism.

Professional Care for the Elderly Mentally Ill Liz Matthew, 2013-11-11 Services to older people with mental health problems have gone through radical change in recent years

Legislation has had a profound effect by dictating how care to older people is delivered both within hospital and within the community. The recent government agenda emphasizes cost effectiveness, value for money and accountability. This too is an important driving force in re-evaluating the service, although not everyone would agree with many of the proposed strategies and there are clearly different views as to the appropriateness of many of the services. One thing is certain, however, the move towards interdisciplinary working is here to stay. Not all change has been led by legislation and many innovations have been founded in the day to day practices in the care of older people with mental health problems. A service of course does not become integrated merely by imposing joint working on a number of professionally based disciplines and in many ways this may not be desirable. At its worst it produces duplication where people from different backgrounds are all doing the same job. This is not the intention of joint working; instead it should attempt to improve the quality of service by a rich mix of skills and experience from a number of related disciplines.

GAO Review, 1985. *Connecting Sociology to Our Lives*, Tim Delaney, 2015-11-17. Many introductory texts claim to make sociology relevant to student interests. Perhaps no other text has done this so completely and engagingly as *Connecting Sociology to Our Lives*. Tim Delaney not only uses popular and contemporary culture examples, he explains sociology thoroughly within the frame of the contemporary culture of students, a culture shaped by political, economic and environmental trends just as much as by today's pop stars. This book will help academics to engage their students in sociology through the prism of their own culture. It involves students in critical thinking and classroom discussion through the book's many 'What Do You Think' inserts and will inspire them to careers with the book's unique chapter, 'Sociology's Place in Society: Completing the Connection'.
