Elementary Needlework Kate McCrea Foster,1896 **Queering the Subversive Stitch** Joseph McBrinn,2021-04-08

The history of men s needlework has long been considered a taboo subject This is the first book ever published to document and critically interrogate a range of needlework made by men It reveals that since medieval times men have threaded their own needles stitched and knitted woven lace handmade clothes as well as other kinds of textiles and generally delighted in the pleasures and possibilities offered by all sorts of needlework Only since the dawn of the modern age in the eighteenth and the nineteenth centuries did needlework become closely aligned with new ideologies of the feminine Since then men s needlework has been read not just as feminising but as queer In this groundbreaking study Joseph McBrinn argues that needlework by male artists as well as anonymous tailors sailors soldiers convalescents paupers prisoners hobbyists and a multitude of other men and boys deserves to be looked at again Drawing on a wealth of examples of men s needlework as well as visual representations of the male needleworker in museum collections from artist s papers and archives in forgotten magazines and specialist publications popular novels and children s literature and even in the history of photography film and television he surveys and analyses many of the instances in which needlemen have contested resisted and subverted the constrictive ideals of modern masculinity This audacious original carefully researched and often amusing study demonstrates the significance of needlework by men in understanding their feelings agency identity and history

Medical Authority and Englishwomen's Herbal Texts, 1550-1650 Rebecca Laroche,2016-12-05 The first study to analyze print vernacular folio herbals from the standpoint of gender and to present original findings to do with early modern women s ownership of these herbals Medical Authority and Englishwomen s Herbal Texts also looks at reasons and contexts behind early modern female writers claiming herbal practice Author Rebecca Laroche first establishes cultural backdrops in the gendering of medical authority that takes place in the herbals and the regular ownership of these herbals by women She then examines women s engagements with herbal texts in life writings and poetry and asks how these moments represent and engage medical authority In ultimately demonstrating how female writers variously take on women s herbal medical practices Laroche reveals the broad range of literary potentials within the historical category of women s medicine
