## **Negation And Theology:**

Negation and Theology Robert P. Scharlemann, Negation and Theology Robert P. Scharlemann, 1992 One of the oldest inquiries of philosophical and theological thought is addressed to the question who or what God is Negative theology provides a way of answering that question by identifying what God is not In recent years certain critical trends such as deconstruction have resembled features of negative theology in that they cancel the apparent meanings of the written word Similarly the Buddhist concept of nothingness has raised questions about the meaning of negation and theism These trends have caused philosophers and theologians to reconsider negation and theology in new ways which are explored in this collection In Negation and Theology a group of distinguished philosophers and theologians take up issues that illuminate the character of negative thinking and seek to make connections both with traditional negative theologies and with current theological and philosophical discussions One essay for example is concerned with the problem of reconciling Paul Tillich's statement that God is being itself with the Buddhist conception of an ultimate nothingness or with the tradition of negative theology The format of the book distinguishes it from mere collections of essays Scharlemann assumes the role of editor introducer and interlocutor questioning the contributors and allowing them to respond Derrida and Negative Theology

Harold Coward, Toby Foshay, 1992-08-25 This book explores the thought of Jacques Derrida as it relates to the tradition of apophatic thought negative theology and philosophy in both Western and Eastern traditions Following the Introduction by Toby Foshay two of Derrida's essays on negative theology Of an Apocalyptic Tone Newly Adopted in Philosophy and How to Avoid Speaking Denials are reprinted here These are followed by essays from a Western perspective by Mark C Taylor and Michel Despland and essays from an Eastern perspective by David Loy a Buddhist and Harold Coward a Hindu In the Conclusion Jacques Derrida responds to these discussions Negative Theology and Philosophical Analysis Simon

Hewitt, 2020-08-17 This book is the first treatment at length of negative or apophatic theology within the analytic tradition Apophatic theology holds that there is a significant sense in which we cannot say what God is Important negative theological elements are present in a host of Christian thinkers from Gregory of Nyssa to Aquinas and yet apophaticism is neglected in philosophical theology as practiced within the analytic tradition By contrast Hewitt shows how apophatic theology is integral to how Christians have thought about God and how it can be defended against standard attacks in the philosophical literature Hewitt diagnoses the unease with apophaticism amongst contemporary philosophical theologians as rooted in a certain picture of how language functions here called referentialism Arguing that this picture is not compulsory an account of language which sits more comfortably with negative theology originating from work of later Wittgenstein is invoked and applied to key themes in philosophical theology including divine personhood the Trinity the Incarnation and the afterlife

**Derrida and Negative Theology** Professor Harold Coward, Harold G. Coward, Toby Foshay, Jacques Derrida, 1992-01-01 This book explores the thought of Jacques Derrida as it relates to the tradition of apophatic thought negative theology and

**Silence and the Word** Oliver Davies,Denys Turner,2002-08-15 Negative theology or apophysis the idea that God is best identified in terms of absence otherness difference has been influential in modern Christian thought resonating as it does with secular notions of negation developed in continental philosophy Apophysis also has a strong intellectual history dating back to the early Church Fathers Silence and the Word both studies the history of apophysis and examines its relationship with contemporary secular philosophy Leading Christian thinkers explore in their own way the extent to which the concept of the apophatic illuminates some of the deepest doctrinal structures of Christian faith and of Christian self understanding both in terms of its historical and contemporary situatedness showing how a dimension of negativity has characterised not only traditional mysticism but most forms of Christian thought over the years *The Unknown God* Deirdre Carabine,2015-01-26 This book contains a careful thorough and where necessary skeptical as regards doubtful evidence especially in the case of Plato and the Old Academy of the beginnings in European thought of the negative or apophatic way of thinking and its relations to more positive or kataphatic ways of thinking about God One of its greatest strengths perhaps the greatest is that the author makes clear that none of the persons concerned Hellenic Jewish or Christian was engaged in the pursuit of a philosophical abstraction or the heaping of rhetorical superlatives on God They were rather concerned to present the origin of the universe as an intimately present living reality which infinitely transcends our thought and speech This combined with careful attention to the varieties of negative theology and its relations with positive and the particular difficulties experienced by the members of the various traditions involved makes the book the best introduction to the negative theology available A H Armstrong Emeritus Professor of Greek University of Liverpool England Emeritus Professor of Classics Dalhousie University Halifax Nova Scotia Canada Senior Fellow of the British Academy Irish academic Deirdre Carabine has lived and taught in Uganda for more than twenty years She has recently been founder Vice Chancellor at the Virtual University of Uganda VUU the first fully online university in Sub Saharan Africa Prior to that she set up International Health Sciences University in Kampala She has taught at Queen's Belfast University College Dublin and Uganda Martyrs University Currently she is Director of Programmes at VUU She attended the Queen's University of Belfast where she graduated with a PhD in philosophy and University College Dublin where as one of the first Newman Scholars she gained a second PhD in Classics She is also author of John Scottus Eriugena in the Great Medieval Thinkers Series 2000

**Contemporary Debates in Negative Theology and Philosophy** Nahum Brown,J. Aaron Simmons,2017-11-24 In this volume scholars draw deeply on negative theology in order to consider some of the oldest questions in the philosophy of

religion that stand as persistent challenges to inquiry comprehension and expression The chapters engage different philosophical methodologies cross disciplinary boundaries and draw on varied cultural traditions in the effort to demonstrate that apophaticism can be a positive resource for contemporary philosophy of religion *Unsaying God* Aydogan Kars,2019 Focusing on the first seven centuries of the Islamic intellectual history *Unsaying God* examines the ways in which Muslim and some Jewish scholars negated what they said about God in order to indicate the limits of human thought on the absolute Ardogan Kars argue that contemporary studies on apophasis and negative theology in Islam are strongly motivated by the challenges and demands of modernity and tend to preserve European universalism in the language of pluralism [Negative Theology as Jewish Modernity](#) Michael Fagenblat,2017-02-27 Negative theology is the attempt to describe God by speaking in terms of what God is not Historical affinities between Jewish modernity and negative theology indicate new directions for thematizing the modern Jewish experience Questions such as What are the limits of Jewish modernity in terms of negativity Has this creative tradition exhausted itself and How might Jewish thought go forward anchor these original essays Taken together they explore the roots and legacies of negative theology in Jewish thought examine the viability and limits of theorizing the modern Jewish experience as negative theology and offer a fresh perspective from which to approach Jewish intellectual history **Hope in a Secular Age** David Newheiser,2019-12-19 Uses premodern theology and postmodern theory to show the endurance of religious and political commitments through the practice of hope **Apophatic Bodies** Chris Boesel,Catherine Keller,2010 The ancient doctrine of negative theology or apophasis the attempt to describe God by speaking only of what cannot be said about the divine perfection and goodness has taken on new life in the concern with language and its limits that preoccupies much postmodern philosophy theology and related disciplines How does this mystical tradition intersect with the concern with material bodies that is simultaneously a focus in these areas This volume pursues the unlikely conjunction of apophasis and the body not for the cachet of the cutting edge but rather out of an ethical passion for the integrity of all creaturely bodies as they are caught up in various ideological mechanisms religious theological political economic that threaten their dignity and material well being The contributors a diverse collection of scholars in theology philosophy history and biblical studies rethink the relationship between the concrete tradition of negative theology and apophatic discourses widely construed They further endeavor to link these to the theological theme of incarnation and more general issues of embodiment sexuality and cosmology Along the way they engage and deploy the resources of contextual and liberation theology post structuralism postcolonialism process thought and feminism The result not only recasts the nature and possibilities of theological discourse but explores the possibilities of academic discussion across and beyond disciplines in concrete engagement with the well being of bodies both organic and inorganic The volume interrogates the complex capacities of religious discourse both to threaten and positively to draw upon the material well being of creation

**Encyclopædia of Religion and Ethics: Mundas-Phrygians** James Hastings,John Alexander Selbie,Louis Herbert

Gray,1917 Scope theology philosophy ethics of various religions and ethical systems and relevant portions of anthropology mythology folklore biology psychology economics and sociology     **Negating Negation** Timothy D. Knepper,2013-12-20 Negating Negation critically examines key concepts in the corpus of Pseudo Dionysius the Areopagite divine names and perceptible symbols removal and negation hierarchy and hierurgy ineffability and incomprehensibility In each case it argues that the Dionysian corpus does not negate all things of an absolutely ineffable God rather it negates few things of a God that is effable in important ways Dionysian divine names are not inadequate metaphors or impotent attributes but transcendent divine causes Divine names are not therefore flatly negated of God but removed as ordinary properties to be revealed as divine causes The hierurgical rituals and hierarchical ranks of the church are also not negated or bypassed but serve as the necessary means of return to God This Dionysian God is therefore not absolutely unknowable and ineffable but extraordinarily knowable and sayable as scripturally revealed and hierarchically conveyed Negating Negation concludes that since the Dionysian corpus does not abandon all things to apophysis it cannot be called to testify on behalf of post modern projects in religious pluralism and anti ontotheology Quite the contrary the Dionysian corpus gives reason for suspicion of such projects especially when they relativize or metaphorize religious belief and practice in the name of absolute ineffability

**Apophatic Bodies** Chris Boesel,2022 The ancient doctrine of negative theology or apophysis the attempt to describe God by speaking only of what cannot be said about the divine perfection and goodness has taken on new life in the concern with language and its limits that preoccupies much postmodern philosophy theology and related disciplines How does this mystical tradition intersect with the concern with material bodies that is simultaneously a focus in these areas This volume pursues the unlikely conjunction of apophysis and the body not for the cachet of the cutting edge but rather out of an ethical passion for the integrity of all creaturely bodies as they are caught up in various ideological mechanisms religious theological political economic that threaten their dignity and material well being The contributors a diverse collection of scholars in theology philosophy history and biblical studies rethink the relationship between the concrete tradition of negative theology and apophatic discourses widely construed They further endeavor to link these to the theological theme of incarnation and more general issues of embodiment sexuality and cosmology Along the way they engage and deploy the resources of contextual and liberation theology post structuralism postcolonialism process thought and feminism The result not only recasts the nature and possibilities of theological discourse but explores the possibilities of academic discussion across and beyond disciplines in concrete engagement with the well being of bodies both organic and inorganic The volume interrogates the complex capacities of religious discourse both to threaten and positively to draw upon the material well being of creation

**Negative Theology** Johannes Aakjær Steenbuch,2022-09-23 How do we speak about God if God is ineffable This paradoxical question lies at the heart of one of the strangest traditions of philosophical and theological thought negative theology As a tradition of thought negative or apophatic theology can be traced back to the convergence of Greek philosophy

with Jewish and Christian theology in the first century CE Beginning with a seemingly simple claim about the ineffability or unsayability of God negative theology evolved into a complex tradition of thought and spirituality Today together with a growing interest in patristic and medieval studies negative theology enjoys renewed attention in contemporary philosophy and theology This short introduction presents an overview of how the tradition developed from antiquity until present
