Negative History Poems:

Negative History Cathryn Hankla, 1997-09-01 Negative history is a legal term referring to decisions that have been overruled or questioned in some way by an appellate court Cathryn Hankla's Negative History alludes to such ambiguity in the domain of a more personal justice as the title poem suggests Petals of morning open in lucid order opposed to the law Here is a question without an answer Through these enthralling poems the reader enters spheres of history and emotion in which there are more often ironies to be observed than answers to be found or justice served And yet what can be discovered through vivid visual detail through the poet's eye can lift us from our reliance on the world's determinations and into an appreciation of life's mysteries With the issues tackled in Negative History individual and familial identity cultural and emotional heritage Hankla skillfully balances keenest loss with the gains some losses paradoxically make available Submerging yourself you learned to search the darkness This remarkable collection plumbs the depths of sexual and transcendent love Let me die trying to tell you one word that might matter and summons from those murky realms the feral nature of strong emotions and of our own fears I have unearthed enough emptiness to survive In Negative History Hankla professes the power of love to carry us from where the press of heat healed the split Poems Containing History Gary Grieve-Carlson, 2013-11-08 Ezra Pound's definition of an epic as a poem containing history raises questions how can a poem contain history And if it can does it help us to think about history in ways that conventional historiography cannot Poems Containing History Twentieth Century American Poetry's Engagement with the Past by Gary Grieve Carlson argues that twentieth century American poetry has contained and helped its readers to think about history in a variety of provocative and powerful ways Tracing the discussion of the relationship between poetry and history from Aristotle's Poetics to Norman Mailer's The Armies of the Night and Hayden White's Metahistory the book shows that even as history evolves into a professional academic discipline in the late nineteenth century and as its practitioners emphasize the scientific aspects of their work and minimize its literary aspects twentieth century American poets continue to take history as the subject of their major poems Sometimes they endorse the views of mainstream historians as Stephen Vincent Benét does in John Brown's Body but more often they challenge them as do Robert Penn Warren in Brother to Dragons Ezra Pound in The Cantos or Charles Olson in The Maximus Poems In Conquistador Archibald MacLeish illustrates Aristotle's claim that poetry tells more philosophical truths about the past than history does while in Paterson William Carlos Williams develops a Nietzschean suspicion of history's value Three major American poets T S Eliot in Four Quartets Hart Crane in The Bridge and Carolyn Forché in The Angel of History present different challenges to professional historiography's assumption that the past is best understood in strictly material terms Poems Containing History devotes chapters to each of these poets and offers a clear sense of the seriousness with which American poetry has engaged the past as well as the great variety of those engagements

with the poetry of the United States Romanticism and the Self-conscious Poem Michael O'Neill, 1997 In this wide ranging study Michael O'Neill examines the phenomenon of the self-conscious poem that is a poem concerned with poetry or more centrally if often connectedly a poem that displays awareness of itself as a poem in the work of the major Romantic poets Blake Wordsworth Coleridge Byron Shelley and Keats The book freshly illuminates many famous lyrics and longer poems and revalues less regarded works such as *The Excursion* For O'Neill self-consciousness is allied to the new status granted to poetry by the Romantics His closely attentive readings suggest that self-consciousness in Romantic poetry often accompanies exploration of even anxiety about poetry's significance Yet his emphasis falls on the imaginatively productive ends to which such exploration and anxiety are put An extended coda looks at the bequest of Romantic self-consciousness to post-Romantic writers it offers chapters comparing Yeats and Stevens discussing later Auden's scepticism about poetry and exploring the affecting intricacies of Amy Clampitt's *Voyages* A Homage to John Keats Throughout O'Neill challenges recent accounts of Romanticism by placing at the centre of his study poetry's imaginative and aesthetic value **Old and new London: a narrative of its history, its people and its places, by W.
