Negotiating Ethnic Boundaries:

Ethnic Boundary Making Andreas Wimmer, 2013-02-07 Introducing a new comparative theory of ethnicity Andreas Wimmer shows why ethnicity matters in certain societies and contexts but not in others and why it is sometimes associated with inequality and exclusion with political and public debate with closely held identities while in other cases ethnicity does not structure the allocation of resources invites little political passion and represent secondary aspects of individual identity

The Politicization of Ethnicity as Source of Conflict Ademola Adediji, 2016-05-11 In view of the explosion of violent conflicts in many parts of the world and the hasty but prevailing assumption that ethnicity is the source of these conflicts this book is encompassed to highlight describe and examine how ethnicity is politicized in many of these current conflicts By deploying the instrumentalist approach and the theory of identity and difference in ethnicity the author identifies the actors involved and depicts how religion is exploited as an instrument of division by reflecting it on the Nigerian situation exploring the examples of the Jos conflicts and the Warri Crisis within a twenty years period 1990 to 2010 *Negotiating Ethnic Boundaries* Paula Savaglio, 2004

Encyclopedia of Race, Ethnicity, and Society Richard T. Cultural Change in Post-Migrant Societies Wiebke Sievers, 2023-12-11 This open access book links the artistic and cultural turn in migration studies to the larger struggle for narrative and cultural change in European migration societies It proposes theoretical and methodological approaches that highlight how ideas of change expressed in artistic and cultural practices spread and lead to wider cultural change The book also looks at the slow processes of change in large cultural institutions that emerged at a time when culture was nationalised It explains how individual and group activities can have an impact beyond their immediate surroundings Finally the book discusses how migration researchers have cooperated with arts and cultural producers and used artistic means to increase the effect of their research in the wider public As such the book provides a great resource for graduate students and researchers in the social sciences and the humanities who have an interest in migration studies and want to move beyond interpreting the world towards changing it Mapping Transnational Boundaries Arijit Hirankumar Sen, 2002

Majority and Minority Norman R. Yetman, 1999 At long last the revision of this widely respected reader is here The civil rights movement of the late 1960 s originally shaped the approach of the first edition of Majority and Minority and the indelible imprint of those events and the perspectives with which we approached them can be seen in each subsequent edition Although many of the most contentious issues today differ from those of three decades ago the persistence of racial and ethnic inequality and conflict has not diminished but has remained deeply ingrained in American life The concerns that undergirded the first edition of Majority and Minority remain as urgent today as

in 1970 The book is divided into four major parts 1 Introduction Definitions and Perspectives 2 Historical Perspectives 3 Models of Ethnic Integration in the United States and 4 The American People and the Future of Ethnicity Each part is preceded by an introductory essay written by Yetman which discusses definitions perspectives and current issues in the field while inter relating and integrating the various articles within each section
