Eppse,1973    *The Negro, Too, in American History* Merl Raymond Eppse,1938    **Blacks in Colonial America** Oscar Reiss,2006-12-11 By the time of the American Revolution blacks made up 20 percent of the colonial population Early in colonial history many blacks who came to America were indentured servants who served out their contracts and then settled in the colonies as free men Over time however more and more blacks arrived as slaves and the position of blacks in colonial society suffered precipitous decline This book discusses the lives of blacks both slave and free as they struggled to make homes for themselves among the white European settlers in the New World The author thoroughly examines colonial slavery and the laws supporting it as early as 1686 for example New Jersey had laws demanding the return of fugitive slaves as well as the emancipation movement active from the beginning of the slave trade Other topics include blacks and the practice of Christianity in the colonies and the service of blacks in the Revolution

Writing History from the Margins Claire Parfait,Hélène Le Dantec-Lowry,Claire Bourhis-Mariotti,2016-09-13 With contributions from leading American and European scholars this collection of original essays surveys the actors and the modes of writing history from the margins of society focusing specifically on African Americans Nearly 100 years after The Journal of Negro History was founded this book assesses the legacy of the African American historians mostly amateur historians initially who wrote the history of their community between the 1830s and World War II Subsequently the growth of the civil rights movement further changed historical paradigms and the place of African Americans and that of black writers in publishing and in the historical profession Through slavery and segregation self educated and formally educated Blacks wrote works of history often in order to inscribe African Americans within the main historical narrative of the nation with a two fold objective to make African Americans proud of their past and to enable them to fight against white prejudice Over the past decade historians have turned to the study of these pioneers but a number of issues remain to be considered This anthology will contribute to answering several key questions concerning who published these books and how were they distributed read and received Little has been written concerning what they reveal about the construction of professional history in the nineteenth century when examined in relation to other writings by Euro Americans working in an academic setting or as independent researchers
