Negrophobia And Reasonable Racism:

Negrophobia and Reasonable Racism Jody David Armour, 1997-05-01 Tackling the ugly secret of unconscious racism in American society this book provides specific solutions to counter this entrenched phenomenon

Negrophobia and Reasonable Racism: the Hidden Costs of Being Black in America Jody David Armour, 1997 *Murder and the Reasonable Man* Cynthia Lee, 2007-10-01 A man murders his wife after she has admitted her infidelity another man kills an openly gay teammate after receiving a massage a third man white goes for a jog in a bad neighborhood carrying a pistol and shoots an African American teenager who had his hands in his pockets When brought before the criminal justice system all three men argue that they should be found not guilty the first two use the defense of provocation while the third argues he used his gun in self defense Drawing upon these and similar cases Cynthia Lee shows how two well established traditional criminal law defenses the doctrines of provocation and self defense enable majority culture defendants to justify their acts of violence While the reasonableness requirement inherent in both defenses is designed to allow community input and provide greater flexibility in legal decision making the requirement also allows majority culture defendants to rely on dominant social norms such as masculinity heterosexuality and race i e racial stereotypes to bolster their claims of reasonableness At the same time Lee examines other cases that demonstrate that the reasonableness requirement tends to exclude the perspectives of minorities such as heterosexual women gays and lesbians and persons of color *Murder and the Reasonable Man* not only shows how largely invisible social norms and beliefs influence the outcomes of certain criminal cases but goes further suggesting three tentative legal reforms to address problems of bias and undue leniency Ultimately Lee cautions that the true solution lies in a change in social attitudes

Race and Crime Elizabeth Brown, George Barganier, 2018-10-02 Criminal justice practices such as policing and imprisonment are integral to the creation of racialized experiences in U S society Race as an important category of difference however did not arise here with the criminal justice system but rather with the advent of European colonial conquest and the birth of the U S racial state *Race and Crime* examines how race became a defining feature of the system and why mass incarceration emerged as a new racial management strategy This book reviews the history of race and criminology and explores the impact of racist colonial legacies on the organization of criminal justice institutions Using a macrostructural perspective students will learn to contextualize issues of race crime and criminal justice Topics include How coloniality explains the practices that reproduce racial hierarchies The birth of social science and social programs from the legacies of racial science The defining role of geography and geographical conquest in the continuation of mass incarceration The emergence of the logics of crime control the War on Drugs the redefinition of federal law enforcement and the reallocation of state resources toward prison building policing and incarceration How policing courts and punishment perpetuate the colonial order through their institutional structures and policies *Race and Crime* will help students understand how everyday practices of punishment and surveillance are employed in and through the police courts

and community to create and shape the geographies of injustice in the United States today **Stand Your Ground** Caroline Light, 2017-02-14 A history of America's Stand Your Ground gun laws from Reconstruction to Trayvon Martin After a young white gunman killed twenty six people at Sandy Hook Elementary School in Newtown Connecticut in December 2012 conservative legislators lamented that the tragedy could have been avoided if the schoolteachers had been armed and the classrooms equipped with guns Similar claims were repeated in the aftermath of other recent shootings after nine were killed in a church in Charleston South Carolina and in the aftermath of the massacre in the Pulse nightclub in Orlando Florida Despite inevitable questions about gun control there is a sharp increase in firearm sales in the wake of every mass shooting Yet this kind of DIY security activism predates the contemporary gun rights movement and even the stand your ground self defense laws adopted in thirty three states or the thirteen million civilians currently licensed to carry concealed firearms As scholar Caroline Light proves support for good guys with guns relies on the entrenched belief that certain bad guys with guns threaten us all Stand Your Ground explores the development of the American right to self defense and reveals how the original duty to retreat from threat was transformed into a selective right to kill In her rigorous genealogy Light traces white America's attachment to racialized lethal self defense by unearthing its complex legal and social histories from the original castle laws of the 1600s which gave white men the right to protect their homes to the brutal lynching of criminal Black bodies during the Jim Crow era and the radicalization of the NRA as it transitioned from a sporting organization to one of our country's most powerful lobbying forces In this convincing treatise on the United States unprecedented ascension as the world's foremost stand your ground nation Light exposes a history hidden in plain sight showing how violent self defense has been legalized for the most privileged and used as a weapon against the most vulnerable **The Best Writings of Offie**

Wortham Offie C. Wortham, PhD., N*gga Theory Jody David Armour, 2020-08 Interrogates conventional assumptions and frames a transformational new way of thinking about law language moral judgments politics and transgressive art especially profane genres like gangsta rap and exposes where racial bias lives in the administration of justice and everyday life

Criminological Perspectives on Race and Crime Shaun L. Gabbidon, 2015-02-11 Ideal for use in either crime theory or race and crime courses this is the only text to look at the array of explanations for crime as they relate to racial and ethnic populations Each chapter begins with a historical review of each theoretical perspective and how its original formulation and more recent derivatives account for racial ethnic differences The theoretical perspectives include those based on religion biology social disorganization strain subculture labeling conflict social control colonial and feminism The author considers which perspectives have shown the most promise in the area of race ethnicity and crime Film and Knowledge Kevin L. Stoeckl, 2002-08-19 Film has become such an underpinning of art and pop culture that its potential for inspiring serious thought is often overlooked Our intellectual involvement with film has been minimized as more in the audience want to be merely amazed and entertained Essays written by both established and cutting edge philosophers of film concentrate in this

work on the value of film in general and the value of certain films in particular for the study and teaching of ideas The essays explore such topics as the significance of narrative unity for self knowledge in David Lynch s *Lost Highway* and in Paul Schrader s *Affliction* ambiguity and responsibility in Akira Kurosawa s *Rashomon* consciousness and cognition in Orson Welles s *Citizen Kane* skepticism in Alfred Hitchcock s *Suspicion* and David Cronenberg s *Naked Lunch* language and gender in Neil Jordan s *The Crying Game* Platonic idealism in Chris Marker s *La Jetee* race in Spike Lee s *Summer of Sam* the concept of the imagination in cognitive film theory and the role of ideology in feminist film theory Instructors considering this book for use in a course may request an examination copy here
