**Mobilising Design** Justin Spinney,Suzanne Reimer,Philip Pinch,2017-02-24 This book brings together research working at the boundary between design knowledges and mobilities offering a novel collection for both theorists and practitioners Drawing upon detailed case studies it demonstrates the diverse roles of design in shaping mobility at different spaces and scales across cities within different types of buildings and infrastructures and through commuting work and leisure activities A range of international scholars illustrate the designed mobilities of car parks traffic lights street benches pedestrian wayfinding systems and accessible design in the urban environment they examine spaces within hospitals airports and train stations and investigate design practices for bicycles future urban vehicles and MotoGP motorcycle racing Other contributions explore overlooked mobile artefacts such as television and video game remote controls 3D printing and the types of packaging which enable objects themselves to move around This book demonstrates how the tools assumptions and processes of design shape spaces of mobility and also illuminates how shifts in the fluidity and circulation of people practices and materials in turn reconfigure practices of design Mobilising Design develops multi disciplinary understandings of design drawing upon diverse literatures including design history product design architecture and cultural geography By highlighting

often invisible artefacts and associated knowledges and controversies the book foregrounds the ways taken for granted in which everyday mobility is designed. It will be of interest to scholars in geography, sociology, economic history, architecture, design and urban theory. **Wayfinding, Consumption, and Air Terminal Design** Menno Hubregtse, 2020-02-20 This book investigates how international air terminals organize passenger movement and generate spending. It offers a new understanding of how their architecture and artworks operate visually to guide people through the space and affect their behaviour. Menno Hubregtse's research draws upon numerous airport visits and interviews with architects and planners as well as documents and articles that address these terminals' development, construction and renovations. The book establishes the main concerns of architects with respect to wayfinding strategies and analyzes how air terminal architecture, artworks and interior design contribute to the airport's operations. The book will be of interest to art historians, architectural historians, practising architects, urban planners, airport specialists and geographers.

**The Other Office** Matthew Stewart, 2004 A global overview of prevailing trends in office design. Full of images, ideas and inspiration, this publication looks at international trends in creative workplace design. At the heart of the book are case studies of 34 pioneering design projects drawn from practices all over the world, each extensively illustrated with plans and photographs. Featured projects include ad agencies, media outfits and law firms, as well as a police station and the headquarters of a political party. An essay examines current trends in office design.
