Neoplatonism And The Arts:

Neoplatonism and the Arts Liana Cheney, John Shannon Hendrix, 2002 This collection of essays explores the scope of the important relationships between the philosophical system of Neoplatonism and the arts in Italy [Iconology](#)

Neoplatonism, and the Arts in the Renaissance Berthold Hub, Sergius Kodera, 2020-09-23 The mid twentieth century saw a change in paradigms of art history iconology The main claim of this novel trend in art history was that renowned Renaissance artists such as Botticelli Leonardo or Michelangelo created imaginative syntheses between their art and contemporary cosmology philosophy theology and magic The Neoplatonism in the books by Marsilio Ficino and Giovanni Pico della Mirandola became widely acknowledged for its lasting influence on art It thus became common knowledge that Renaissance artists were not exclusively concerned with problems intrinsic to their work but that their artifacts encompassed a much larger intellectual and cultural horizon This volume brings together historians concerned with the history of their own discipline and also those whose research is on the art and culture of the Italian Renaissance itself with historians from a wide variety of specialist fields in order to engage with the contested field of iconology The book will be of interest to scholars working in art history Renaissance history historiography philosophy theology gender studies and literature

Neoplatonism and Western Aesthetics Aphrodite Alexandrakis, Nicholas J. Moutafakis, 2002-01-01 Shows how the aesthetic views of Plotinus and later Neoplatonists have played a role in the history of Western art

Aesthetic Themes in Pagan and Christian Neoplatonism Daniele Iozzia, 2015-03-12 Whilst aesthetics as a discipline did not exist before the modern age ancient philosophers give many insights about beauty and art In Late Antiquity Plotinus confronted the problem of beauty and the value of the arts Plotinus' reflections have an important role in the development of

the concept of the value of artistic imagination during the Renaissance and the Romantic era but he also influenced the artistic taste of his time Aesthetic Themes in Pagan and Christian Neoplatonism reconstructs the aesthetic philosophical views of Late Antiquity and their relation to artistic production of the time By examining the resonance of Plotinus thought with contemporary artists and with Christian thinkers including Gregory of Nyssa the book demonstrates the importance of Plotinus treatise On Beauty for the development of late ancient aesthetics The Cappadocian fathers interest in Plotinus is explored as well as the consequent legacy of the pagan thinker s philosophy within Christian thought such as the concept of beauty and the narration of the contemplative experience Uniquely utilising philological and philosophical insight as well as exploring both pagan and Christian philosophy Aesthetic Themes in Pagan and Christian Neoplatonism represents the first comprehensive synthesis of aesthetic thought of Late Antiquity *Synoptic Art* Michael J. B. Allen,1998 **Neoplatonic Aesthetics** Liana Cheney John Shannon Hendrix,2004 Neoplatonic Aesthetics Music Literature and the Visual Arts explores the idea of a Neoplatonic aesthetic a philosophy of the arts based on the writings of Plato and the Neoplatonists principally Plotinus Proclus Pseudo Dionysius Nicolas Cusanus and Marsilio Ficino and more contemporary philosophers Stephen MacKenna Iris Murdoch Denman Ross Jacques Derrida and Hans Georg Gadamer This book examines the artistic production of figures such as Gioseffe Zarlino Fra Angelico Leon Battista Alberti Sandro Botticelli Michelangelo and Giorgio Vasari and it formulates theoretical approaches to contemporary production based in the Neoplatonic philosophies **Neoplatonism of the Italian Renaissance** Nesca A. Robb,2021-04-13 Originally published in 1935 the aim of this title is first to give a clear outline of Florentine Neoplatonism and then to consider its influence on art and literature during a period that extends roughly from the age of Lorenzo de Medici to the middle of the sixteenth century and the beginnings of the Counter Reformation No rigid divisions of time have been fixed but with few exceptions the works discussed may be placed between these bounds Even within these limits it would require a work of greater dimensions that the present to exhaust so large a subject in all its bearings The leaven of Neoplatonism had penetrated the thought of the age in many directions this study is confined to such of its manifestations as were in a somewhat narrow sense artistic and literary and to the use and abuse of philosophical ideas for aesthetic purposes *From Idolatry to Advertising: Visual Art and Contemporary Culture* Susan G. Josephson,2016-09-16 This book records the conclusions that I came to as I thought through the cultural evolution of each of the different sorts of visual art and tried to piece together their story from the perspective of philosophy Chapter 1 discusses how culture shapes art to be what it is from the outside like a mold shapes clay and the great power of art to affect the way we think and to promote cultural change Chapter 2 discusses the evolution of Fine Art from its birth in the Renaissance to its present old age and decline Chapter 3 discusses the institutional structures that make art for popular taste its own sort of art and the culture wars over censorship and whether public art should be Fine Art or art for popular taste Chapters 4 and 5 discuss the life histories of design and advertising This book is also the story of how art interacts with technology In my work

in Artificial Intelligence research I saw that there is an intimate connection between the evolution of design in engineering and design in art In both sorts of design there is a growing understanding of how to make and use levels of packaging and how to approach things from the functional perspective of the artifact This is discussed in Chapter 4 My talk in Chapter 1 of how art styles affect us also reflects this functional approach That is instead of approaching art styles in the traditional ways I have approached them in terms of the tasks of vision and how art delivers information packaged to be understood at different levels of visual processing Using this functional approach I stress what art does for us rather than what art is I also tried to address the evolution of culture given the mass media and mass market and the role of art in the growing marriage between television and computer As I thought about computers in my work in Artificial Intelligence I saw that a new sort of idolatry was arising where he computers were being asked to be infallible experts giving us advice on everything from taxes to marriage problems and our health I saw that computers were being used not just as art tools and artists but also as art objects like the ancient idols This started me thinking about how other ancient functions of religion were being filled by advertising and the media
