## Nerve Poems:

**Nerve Storm** Amy Gerstler,1993-11-01 Your thoughts become fluid volatile their aroma fills the room This is a nerve storm In her first collection since Bitter Angel winner of the 1991 National Book Critics Circle Award Amy Gerstler explores themes of suffering and redemption through a heady blend of folklore popular culture and the natural world in Nerve Storm The poet Eileen Myles has said that the supernatural the sexy mundane the out of sight are simply Gerstler s materials employed as they might be in a piece of religious art A crackling wit and whimsical instinct guide this collection as Gerstler traipses through humanity s triumphs and blunders effortlessly revealing the surreal and surprising possibilities inherent in everyday life **Nervous System** Rosalie Moffett,2019-10-01 A moving and kinetic collection of poetry from the 2018 winner of the National Poetry Series selected by Monica Youn Unexpected unusual and stirring the poetry of Rosalie Moffett takes us to the brink of a world continually unmaking itself Georgia Review From diving bell spiders to the nervous system of the human body from trees growing so heavy with fruit that they split to dogs galloping through snowy hills Moffett s world is rendered with precision intricacy and extraordinary beauty Exhilarating in its technical expertise but also steeped in a profound connection to the natural world and the human psyche Nervous System is a collection from a major emerging voice

**Beautiful Nerve** Sheila Squillante,2014-12-06 **The Nerve Of It** Lynn Emanuel,2015-08-18 Emanuel s version of a new and selected poems turns convention on its head She ignores chronology placing new poems beside old mixing middle and early poems with recent work and liberating all her poems from the restraints of their particular histories both aesthetic and autobiographical Whether writing in the comedic drag of the cartoon strip or investigating the Mobius strip relationship between reader and writer or exposing the humor and hurt that accompany visitations from Frank O Hara and Gertrude Stein The Nerve of It both stings and pleases with its intelligence wit and vivacity It breaks through in ways that are bold sexy haunting and wry the die hard opposition of new and old personal narrative and linguistic play sincerity and irony misery and hilarity Open the book Something new is happening here **The Nerve** Glyn Maxwell,2002 A haunting and powerful collection The Nerve captures the strangeness and splendor of America in the twenty first century Glyn Maxwell s characters include FBI agents the Californian wild child Genie a man who holds his own funeral and women writing love letters to men on Death Row From college football games to television weather reports from hayrides to hunting tragedies Maxwell s brilliant lyrics and narratives explore American life and legend

**Beautiful Nerve** Sheila Squillante,2016-09-30 The poems in Sheila Squillante s debut collection Beautiful Nerve are meant to unsettle They draw on our anxieties and fears somatic linguistic metaphoric leading us somewhere somehow calming in its familiarity but troublingly unsteady a bridge that ends abruptly as you cross it the doomed deck of a haunted ship a three cornered room the cutlery drawer a table where you lie still beneath the surgeon s knife Miscommunications and disorientations abound in these poems Memories and dreams collide with nature and media creating something superficially simple but too unstable for us to ever get comfortable

Look at the landscape for a while they tell us But then pull out and be on your way **To Touch a Nerve** Michael Lexington Hawkins,2013-08 To Touch A Nerve tackles shame guilt and self condemnation and other issues that most are afraid to talk about It is a soul baring accumulation of rude awakenings and spiritual arousal that turns a curse to a blessing proving that God s mercy and grace love and compassion can truly bring an unknown strength to the surface This collection of poetry is a thank you to those who uplifted kept confidence and gave hope to a man who hadn t loved himself for some time Thank you for touching that nerve *Nerve Chorus* Willa Carroll,2018 Poetry Women s Studies NERVE CHORUS sings out of wreckage This first book dives deep into family society and self to interrogate the inequalities of gender class and race along with brutalities of war gun violence and greed Its revelations take nerve to reveal from a young girl s survival of violation to a father s fatal asbestos exposure Its urgent voice moves from loss to resilience so that Nerve comes to mean the crackling mind the high heat metaphor and a positively choral ambush of language These nimble poems grapple with what it means to belong to a body a family a country With rigor and dark wit Carroll conjures the exhilarating terror of moving through one s life with nothing but flesh holding back disaster Tracy K Smith Here is a miraculous poet made of music She writes what the world needs to hear what I needed to hear She takes on our greatest mysteries and inheritances love desire loss family activism art justice and every poem changes the air we breathe This debut reworks the mind as it breaks the heart with its beauty To be fully alive in the face of devastation grief and longing a poet must make a song that could be eternal Willa Carroll is fearless in the face of that challenge Her music deserves to be sung everywhere in the church of our earth in the peace between lovers in the halls of our learning in the quiet places of illness and death and mourning Hers is an art of perpetuity and she is a genius whose words I hold my breath to hear more clearly Brenda Shaughnessy As we speak or sing the tongue dances in a hot wet auditorium momentarily lit Half public half private this book maps the body in lingual movements that accrete and erupt out of stasis striking choral resonances transmuting personal local histories straddling the elegant and the repugnant Here is a force to be reckoned with a memorable debut Timothy Liu *Sea-Level Nerve: Book One* James Grabill,2014 In Sea Level Nerve Oregon Book Award Winner James Grabill takes the micro and macro observations of science in other words every being and phenomenon in the universe and pulls them together into a great vision His unique lyricism is one of the brilliant lights of American poetry Lawrence Smith editor of Caliban *Sea-Level Nerve: Book Two* James Grabill,2015-12-01 I know of no other poet who has addressed climate change as powerfully and persistently as James Grabill In Sea Level Nerve Book One the urgency of our greatest challenge is perhaps more audible In Book Two Grabill shatters every conceivable divide we have become so comfortable with By allowing language to fly far and deep and wide he fuses science with imagination with logic with intuition with human with other Threads of spatial temporal genetic and tonal interrelatedness ramify through this book like mycorrhizae through soil and thus Grabill gives voice to all on our planet in a chorus of systems thinking and a revelation of the absolute necessity of biologic diversity You need only to

press an ear to this shell for it to make the sound you can't hear as much as sense within your chest Derek Sheffield author of Through the Second Skin     **Nervous Systems** William Stobb,2007-05-29 Selected for the 2006 National Poetry Series by August Kleinzahler William Stobb's poems attend calmly to a dynamic world Nature family and friends are among the shifting systems where Stobb finds poems His fluency in a variety of forms from the measured tenderness of Jay Meek to the oceanic surrealism of Donald Revell enacts the tension between order and entropy in the physical world we live in Stobb has nerve talent and engages this madly accelerating and often nearly indecipherable world in what's called real time writes August Kleinzahler and he manages it without sacrificing emotional truth     *Nerve Squall* Sylvia Legris,2005 Winner of the 2006 Griffin Poetry Prize Sonic congestion Purgatorial traffic jam corkscrewing countercocklearwise the only way out Nerve Squall is a field guide like no other a surreal handbook to a landscape at the crossroads of meteorology and neurology where the electrical storms without and the electrical impulses within converge Legris's fascination with weather ghosts and brain disorders is the starting point for a collection of poetry that ensures you'll never look at nature the same way again You'll find snow golems and ghost cats and a sky filled with fish swimming the winds of a storm And you'll find a haunted terrain where the natural world becomes an allegory for our most intimate fears Despite their dark and often cinematic approach these poems are also tinged with a sly apocalyptic wit that can't help but laugh as the sky falls Nerve Squall is a vital exploration of the symbiosis of storm nerve and language a sure handed guide to the end of the world Legris loves language the way it radiates not just for what it can say by syntactic regularity and accumulation but for its cellular resonances Powerful resonance is created over a whole page with a minimum of words in a sculpture that hardly qualifies as verse as we commonly know it But there is no question that it is poetry and that it is the use of words at its most pared Here is Legris brilliance her knife edged attention at its finest Open Letter     *Nerves* John Wieners,1970     **Neuromuscular Case Studies E-Book** Tulio E. Bertorini,2023-10-27 Ideal for neurologists and other health care professionals who treat patients with neuromuscular diseases Neuromuscular Case Studies 2nd Edition presents more than 100 cases of both common and rare neuromuscular disorders Dr Tulio E Bertorini provides the latest tools and strategies for diagnosis and management that minimize disability and maximize quality of life for your patients including up to date coverage of numerous recent advances in the field Using a multidisciplinary approach this practical text contains two parts the first includes basic aspects of anatomy physiology diagnostic tests and therapeutic strategies the second describes specific cases and their diagnosis and management Presents a multidisciplinary approach to the management and therapeutic treatment of the full range of neuromuscular disorders and resulting complicationsCovers the latest advances in the field including genetic causes of hereditary diseases new autoimmune diseases and promising new therapies such as antisense oligonucleotides gene therapies and immunotherapy Includes the wide range of disorders that fall under each disease classification e.g. the Motor Neuron Diseases chapter includes all forms of spinal atrophy ALS neuropathies and myopathies as well as disorders of
