**Bronze Age Britain** Michael Parker Pearson, 2021-01-29. During the Neolithic and Bronze Age, a period covering some 4 000 years from the beginnings of farming by stone-using communities to the end of the era in which bronze was an important material for weapons and tools, the face of Britain changed profoundly. From a forest wilderness to a large patchwork of open ground and managed woodland, the axe was replaced as a key symbol first by the dagger and finally by the sword. The houses of the living came to supplant the tombs of the dead as the most permanent features in the landscape. In this fascinating book, eminent archaeologist Michael Parker Pearson looks at the ways
