Started Deborah Morley, 1999-02 Over the last few years Internet and World Wide Web use has skyrocketed and consequently many are interested in developing a Web site for personal or business use Though creating a Web site has in the past been very complicated and primarily left to computer professionals the introduction of Web publishing programs such as Microsoft FrontPage has made Web site creation a possibility for almost anyone Getting Started with HTML

Denis Titchenell, 1999 The world is experiencing a growing obsession with the World Wide Web Never before has there existed a medium through which anyone almost anywhere given certain economic requirements can share information of virtually any sort with practically everyone else Millions are publishing pages on the World Wide Web and many millions are eagerly devouring them without editor distributor or market forces intervening Designed to provide a practical guide to those interested in the production of Web pages Getting Started with HTML emphasizes available devices and features of Web pages with simple but thorough discussion of how and where to use them with practical examples Concise and readable Denis Titchenell provides real world scenarios and case studies with today's students or webmasters in mind Getting started has never been easier

Getting Started with Computers Deborah Morley, 1999 Over the past fifteen or twenty years personal computers have evolved from do it yourself kits that people built as a hobby to an indispensable part of our society Today knowing how to use a computer is not an option it is essential From using an ATM machine to using the electronic card catalog at the library to surfing the Internet computers have become an integral part of our everyday life and are here to stay

Getting Started with the Internet Floyd Fuller, 1998 *Using Microsoft Works 4.0 for Windows 95* Gwynne Larsen, Kathy Marold, 1997 The book is intended for those interested in learning about the newest generation of IBM compatible microcomputers and for learning ways to increase personal productivity by using computers This computer literacy textbook concentrates on using microcomputers for personal information systems This textbook refers to the newer microcomputer hardware configurations the newer operating system and the newer software applications The student is free to delve narrowly or deeply into each application The target audience is the general PC user not the more technical information systems major The authors goal is to make using microcomputers easier to learn and understand Pref
