are familiar to us all For the first time Stephen Bertman attempts to explain these disparate overwhelmingly negative phenomena with a single unifying principle that the accelerated pace of American society is eroding the essence of our most fundamental values In 1970 Alvin Toffler identified a psycho biological disease he called future shock caused by too much change in too short a time Now Bertman daringly diagnoses an even more serious condition hyperculture a chronic warping of morals and ethics caused by America s addiction to speed The treatment he argues in this book will require nothing less than a drastic slowdown we must reassert control over the technologies that now dominate us in order to insure a humane future for our children and ourselves We live according to Bertman in a society ruled by the power of now a power that gives us instant gratification even as it demands our instantaneous obedience As a result we have adapted our lives and values to match the speed of light electronic technologies that surround us But in so doing we have paid a high price in spirit and mind Cut off from the wisdom of the past and too rushed to consider the consequences of our actions we are caught up in a culture of sensationalism and transience in which the very definitions of personal identity and democracy are being transformed Hyperculture dares to suggest that the cure for our condition lies not in an information superhighway or third wave information revolution but in the radical and painful process of decelerating our lives enough to reclaim them It is a daunting challenge to be sure but one on which our happiness and even our survival depend **The Solution** Laurel Mellin,1997 The Solution explains that there are six causes of weight problems and provides six corresponding cures two mind two body and two lifestyle which work together to help nurture emotional needs set realistic limits and expectations replace body shame with pride turn off negative societal messages and improve health despite one e genetic makeup 20 charts graphs

Success! Success! Success! ,1995 **Profit from Experience** Michael J. O'Brien,1998-07 Using 21 simple exercises an expert in cognitive psychology and change management tells readers how they can profit from their experience consciously improving their outlooks habits and patterns of behavior to increase their personal effectiveness and make a real difference in any task they choose to take on
