The guide states that each test form consists of one reading passage from literature, science or history, social science followed by a variety of questions on word meaning and comprehension with emphasis on inference items. The guide points out that the new test deals with more difficult content and more complex thinking than the original did and also that special efforts were made to include passages that would appeal to the diversity of ethnic groups in California. The editing test in the guide is based on student essays and consists of multiple choice questions that assess the most commonly occurring errors in student writing. The guide includes three illustrative reading and editing test forms. KEH Survey of Academic Skills ,1989 This survey reflects new developments in the mathematics curriculum as emphasized in the curriculum frameworks and state adopted textbooks. The first section describes the procedure for the development of the survey and the rationale for the topics and types of questions included on the mathematics portion of the test. The second section describes the mathematics content to be assessed and includes illustrative test items. Categories assessed are 1 Problem Solving Reasoning and 2 Understandings and Applications. An answer key to the examples is provided. YP **The California CBO** Irma Guzmán Wagner, California. State Department of Education, 1989 This report describes the results of a survey designed to provide descriptions of chief business officials (CBOs) their personal characteristics their career paths and their preparation. All chief business officials in California K 12 school districts and in offices of county superintendents of schools received questionnaires regarding the CBO position. 662 responses were returned. With regard to personal characteristics the findings revealed that the CBO in California school districts is a white male around 45 to 50 years of age with an expected retirement date of 1998. His yearly salary is about 50 000 and the position he holds is classified rather than certificated. Thirty seven percent had prior outside experience in business the military or civil service. The CBO depended upon personal contacts for advancement. In relation to career paths and preparation most CBOs had a master's degree. They concurred that budget preparation was the principal skill needed. The CBOs expressed satisfaction with their jobs but were most concerned about the need for a balance between required tasks and allocated resources. Another concern was that the position be advanced in terms of professional understanding and recognition.
