**Literature for Young Adults** Joan L. Knickerbocker, 2017-03-15 Young adults are actively looking for anything that connects them with the changes happening in their lives and the books discussed throughout Literature for Young Adults have the potential to make that connection and motivate them to read It explores a great variety of works genres and formats but it places special emphasis on contemporary works whose nontraditional themes protagonists and literary conventions make them well suited to young adult readers It also looks at the ways in which contemporary readers access and share the works they're reading and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs In addition to traditional genre chapters Literature for Young Adults includes chapters on literary nonfiction poetry short stories and drama cover art picture books illustrated literature and graphic novels and film It recognizes that while films can be used to complement print literature they are also a literacy format in their own right and one that young adults are particularly familiar and comfortable with The book's discussion of literary language including traditional elements as well as metafictive terms enables readers to share in a literary conversation with their students and

others when communicating about books It will help readers teach young adults the language they need to articulate their responses to the books they are reading *Prentice Hall Choices in Literature*, 1997 The me you see Where paths meet Deciding what's right You are the solution Communication explosion **Books to Build On** E.D. The Voice of the Narrator in Children's Literature Charlott Otten, Gary D. Schmidt, 1989-06-26 As Otten and Schmidt note in their preface voice is a broad metaphor Thus the 41 essays in this collection provide varied approaches examining point of view focus selection of details tone and even illustrations as part of the narrative identity Eight genres including picture books fantasy realism and biography receive separate study in generally brief articles by writers and more substantial analyses by critics In her contribution Jill Paton Walsh describes

contemporary criticism as an impenetrable thicket of technical terms In most cases the critics here avoid jargon They speak clearly offering practical criticism accessible to anyone seriously concerned about narrative technique in children's literature Choice Although children's literature is now a recognized branch of English and American literature much of the criticism of it has focused on teaching methodology history and basic exposition Since children's books are no less a part of the literary tradition than adult books there is room for new approaches to children's literature While the importance of the voice of the narrator is emerging in criticism of adult fiction poetry and nonfiction little has been written about this subject in children's literature Examining the voice of the narrator can identify hitherto unexplored and unrecognized aspects of children's literature The essays in this collection were contributed by noted authors and critics Their inquiry is divided into eight genres the illustrated book folk literature and myth fantasy realism poetry historical fiction biography and informational books and each genre is discussed in terms of the authorial voice and the critical voice Each of the essays works toward an understanding of how the voice of the narrator functions in a given work or in the larger corpus of an author's work The result is not only a greater understanding of how specific authors shape their material and how authors use voice for particular effects but also how the narrator differs functionally from one genre to the next This unique essay collection is particularly suited for use in children's literature courses Because the contributors are some of the most significant authors and critics in children's literature in English it should also be part of any academic library's holdings in the criticism of children's literature in particular and literary criticism in general Glencoe Literature ,2001 State adopted textbook 2001 2007 Grade 7 The Reader's Choice ,2002 Comprehensive English language arts program **Heroines of the**
