**Images of the Anthropocene in Speculative Fiction** Tereza Dedinová, Weronika Laszkiewicz, Sylwia Borowska-Szerszun, 2021-03-01 In order to demonstrate that speculative fiction provides a valuable contribution to the discussion about the challenges of the Anthropocene Images of the Anthropocene in Speculative Fiction investigates a range of novels whose subject matter pertains to various aspects of the Anthropocene. These include the destruction and protection of the natural environment, the relationship between human and non-human inhabitants of the planet, the role of myth in the shaping of and combat against the Anthropocene, the political dimensions of the Anthropocene, the ensuing threat of the Apocalypse, and the role of post-apocalyptic narratives. To explore these topics, our authors examine the works of Patricia Briggs, M.R. Carey, Dmitry Glukhovsky, Ursula K. Le Guin, N.K. Jemisin, Stephenie Meyer, China Miéville, James Patterson, Maggie Stiefvater, J.R.R. Tolkien, and Scott Westfield. Their essays demonstrate that speculative fiction, given its ability to pursue scenarios of alternative history and present familiar things in an unfamiliar way, can alter the readers' perception of their duties and responsibilities towards their communities and the world, so that the threat of human-wrought destruction might ultimately be averted.

**Urban Tunnels Role** Benjamin Ramirez, 2025-02-26 Urban Tunnels Role explores the hidden world of underground infrastructure and its vital role in modern cities. This book highlights how urban tunnels support essential utilities like water and electricity and transportation systems such as subways, impacting urban development, resilience, and sustainability. Intriguingly, underground infrastructure has evolved alongside urban development, initially serving basic sanitation needs and expanding to meet current challenges like population density and climate change. The book emphasizes the importance of tunnels for efficient utility distribution and transportation networks. It examines geological considerations, excavation techniques, and structural engineering principles, providing a comprehensive understanding of tunnel construction. By understanding these subterranean networks, cities can optimize resource allocation and minimize environmental impact. Beginning with the historical development of urban tunneling, the book progresses through utility and transportation aspects, featuring global case studies of successful tunnel implementation. It concludes by exploring future trends like smart tunnels, showcasing how advanced monitoring systems contribute to smart city initiatives. This approach ensures readers gain a holistic view of urban tunneling's role in shaping sustainable and resilient urban centers.

**The Palgrave Handbook of Global Fantasy** Elana Gomel, Danielle Gurevitch, 2023-06-07 This handbook is the first of its kind, comprehensive overview of fantasy outside the Anglo-American hegemony. While most academic studies of fantasy follow the well-trodden path of focusing on Tolkien, Rowling, and others, our collection spotlights rich and unique fantasy literatures in India, Australia, Italy, Greece, Poland, Russia, China, and many other areas of Europe, Asia, and the global South. The first part focuses on the theoretical aspects of fantasy, broadening and modifying existing definitions to accommodate the global reach of the genre. The second part contains essays illuminating specific cultures, countries, and

religious or ethnic traditions From Aboriginal myths to self representation of Tibet from the appropriation of the Polish Witcher by the American pop culture to modern Greek fantasy that does not rely on stories of Olympian deities and from Israeli vampires to Talmudic sages this collection is an indispensable reading for anyone interested in fantasy fiction and global literature    **Moonlight Mist: An Urban Fantasy** Stella Fitzsimons,2021-12-28 Not every plan is a good one Luna finds herself living in the San Diego Keep betrothed to the higher Alpha Cyrus a man she holds in low esteem in any of his forms She has no choice It was the only way to give Winter a chance to survive locked away in a dark place by the Persian King of Kings Hard to believe it could get worse until a troll twice the size of Kong lands in San Diego s financial district Fantasy world meet human world epicfantasyfail And then the whole faulty portal wards letting banished monstrosities back into the five realms thing starts to trend and that means endless work for Luna Kirsi and a certain brother from another mother Yeah a total disaster And there s still the shotgun wedding that total xxxxx Chazona the whole lizard people thing bear bats killer trees and a wintry night in the forest of nightmares Luna could really use a couple new powers like yesterday and Winter where is he urban fantasy witch immortals shapeshifters werewolf coming of age paranormal fantasy series witches paranormal elements fantasy adventure contemporary fantasy romance new adult fantasy strong heroine supernatural mystery supernatural suspense    **The Urban Question in Africa** Padraig R. Potter,2000 Based on the author's first hand field research this book addresses the twin processes of urbanization and globalization as they affect the contemporary Caribbean region One of the key aims of the book is to focus attention on the fact that contrary to popular perceptions the Caribbean is highly urbanized Indeed statistics show that the region is more highly urbanized than the world taken as a whole In addition the fact that the Caribbean region has always been affected by processes of globalization in respect of its economy polity and society is central to the text The chapters cover pressing topics such as urban change and the evolution of mini metropolitan regions the importance of the mercantile and plantopolis frameworks tourism post modernity and the urban nexus economic change and the dual processes of global convergence and divergence and the nature of the relationships existing between the state the informal sector housing and environmental conditions In reality it is shown that the development of tourism and enclave manufacturing is leading to new forms of urban concentration and not spatial dispersal American Urban Politics in a Global Age Paul Kantor,Dennis R.
