Materialien Zu Ernst Blochs Prinzip Hoffnung:

Materialien zu Ernst Blochs Prinzip Hoffnung Burghart Schmidt, 1978 **Pädagogik der Hoffnung** Friedhelm Zubke, 1996 *Transcendence, Immanence, and Intercultural Philosophy* Nahum Brown, William Franke, 2016-12-20 This book presents detailed discussions from leading intercultural philosophers arguing for and against the priority of immanence in Chinese thought and the validity of Western interpretations that attempt to import conceptions of transcendence The authors pay close attention to contemporary debates generated from critical analysis of transcendence and immanence including discussions of apophasis critical theory post secular conceptions of society phenomenological approaches to transcendence possible world models and questions of practice and application This book aims to explore alternative conceptions of transcendence that either call the tradition in the West into question or discover from within Western metaphysics a thoroughly dialectical way of thinking about immanence and transcendence **A Companion to Continental Philosophy** Simon Critchley, William R. Schroeder, 1998-06-08 Covering the complete development of post Kantian Continental philosophy this volume serves as an essential reference work for philosophers and those engaged in the many disciplines that are integrally related to Continental and European Philosophy Dictatorship, State Planning, and Social Theory in the German Democratic Republic Peter C. Caldwell, 2003-03-27 The introduction of state planning and party dictatorship dramatically altered the environment for social theory in the German Democratic Republic But social thought did not disappear By the mid 1950s East German social theorists discovered the basic contradictions of state socialism that would eventually lead to its collapse the inability of the plan to function without markets and its inability to permit markets the inability of the party state to guarantee the rule of law and yet also the need for a regular system of rules in a modern industrial society and the contradictory philosophical claims of a Marxist Leninist philosophy that rejected idealism and Marxist Leninist dogma with its idealistic claim to know the laws of social modernization Making use of archival sources Caldwell examines the articulation of these analyses their subsequent suppression by party authorities in the late 1950s and their return under the guise of cybernetics in the 1960s **Nordic Utopias and Dystopias** Pia Maria Ahlback, Jouni Teittinen, Maria Lassén-Seger, 2022-11-24 The Nordic countries have long been subject to certain idealised even utopian imaginaries particularly with regard to images of pristine nature and the societal ideals of democracy equality and education On the other hand such projections inevitably invite dissent irony and intimations of the utopia s dark underside Things may yet take or may have already taken a dystopic course The present volume offers twelve contributions on utopias and dystopias in Nordic literature and culture Geographically the articles cover the Nordic countries of Denmark Finland Norway and Sweden as well as the autonomous area of Greenland Through the articles varied subjects ranging from avant garde literature and long poems to noir TV series young adult fiction popular historiography and political discourse in literature outside of Norden the volume brings forth a historically rich multi layered picture of social cultural and environmental

imagination in the Nordic countries Nordic Utopias and Dystopias is thus of interest not only to specialists in dystopian and utopian research but more broadly to scholars of literature and culture and the political and social sciences especially but not exclusively in the Nordic context

Self-reflection in Literature, 2019-12-16 Self reflection is fundamental for human thinking on many levels Philosophy has described the mind's capacity to observe itself as a core element of human existence Political and social sciences have shown how modern democracies depend on society's ability to critically reflect on their own values and practices And literature of all ages has proven self reflexivity to be a crucial trait of cultural production This volume provides the first diachronic panorama of genres forms and functions of literary self reflection and their connections with social political and philosophical discourses from the 17th century to the present Far beyond the usual focus on postmodernist opacity these contributions present a rich tradition of critical transparency Literary texts that show us what is behind and beyond them

Thinking Unrest Kristina Mendicino, 2025-11-01 Reconsiders major thinkers and works of German Idealism and their legacy for our own restless times From the longing in which Schelling based human freedom to the restlessness of the negative that Jean Luc Nancy famously traced through Hegel's corpus unrest centrally preoccupied many thinkers associated with German Idealism Thinking Unrest gathers original essays from eight leading scholars to reopen the question of what moves thought both within German Idealism and among the movement's heirs Through readings of Fichte Hegel Hölderlin Novalis and Schelling as well as more contemporary writers such as Nicolas Abraham Ernst Bloch Antonio Gramsci and Rainer Maria Rilke contributors expose more broadly what it may mean for philosophy to be a matter of responding to that which provokes troubles and withdraws from thought Drawing on various theoretical perspectives poststructuralism psychoanalysis the history of science political theory the volume reconsiders the legacy of German Idealism for thinking unrest today

Emblematik der Zukunft Wilhelm Voßkamp, 2016-05-24 Literarische Utopien sind Medien einer spezifischen kulturellen Kommunikation Ihre textuelle Organisation die sie von anderen Gattungen unterscheidet besteht in einer Mobilisierung von Bildern der satirisch beschriebenen Wirklichkeit und im Entwurf imaginärer Gegenbilder Diese Gegenbilder sind narrativ und bildhaft zugleich Sie beziehen sich implizit oder explizit kritisch auf die jeweilige gesellschaftliche Wirklichkeit in der sie entstehen ob als Wunsch oder als Schreckbild Von besonderer Bedeutung sind literarische Entwürfe im Vorwegnehmen von Zukunft und in der Gegenberstellung von Wirklichem und Möglichem im Sinne des Möglichkeitsdenkens Literarische Utopien erlauben fiktionales Probehandeln deshalb sind ihre unterschiedlichen ästhetischen Ausprägungen zugleich der Ort ihrer Selbstreflexion

Utopie, Messianismus und Apokalypse im Frühwerk von Ernst Bloch Arno Münster, 1982

The Utopian Aesthetics of Three African American Women (Toni Morrison, Gloria Naylor, Julie Dash) Heike Raphael-Hernandez, 2008 This work offers a connection between the concrete utopian theory of hope by the Gennan Jewish philosopher Ernst Bloch and the literary productions of contemporary African American women writers The study argues that these literary texts should be read as concrete utopias outlined in Bloch's major work *The Principle of Hope*

Bloch argues that when people become consciously aware of the dialectical tendencies in concrete utopias will they recognize the possibilities first for their own personal empowerment and then for their communities As a result of their conscious awareness readers will be able to perceive the visions of the texts and will begin to actively dream of becoming agents for change themselves The study claims that most texts by contemporary African American women writers such as Alice Walker Toni Cade Bambara Gloria Naylor Ntozake Shange Toni Morrison Gayl Jones Paule Marshall Sherley Anne Williams Bebe Moore Campbell and Terry McMillan provide concrete utopian visions An application of Bloch s theory to these writers enriches a reading of their texts and demonstrates that art is the medium that will remind people of their constant never ending responsibility for personal agency Revolutionäre Philosophie in Aktion Trautje Franz,1985

Monographic Series Library of Congress, **Monographien zur philosophischen Forschung** ,1982 **Die Grossen der Weltgeschichte: Einstein bis King** Kurt Fassmann,1978 *Das nationalsozialistische Massenlied* Alfred Roth,1993

Twentieth-century European Cultural Theorists Paul Hansom,2004 Presents biographies of the men and women who wrestled with the complex theoretical problems of twentieth century culture With few exceptions the theorists treated in this volume focus their critical attention on the idea an nature of the human subject and how that subject is created and maintained *Religion Past & Present: Bia-Chr* Hans Dieter Betz,2007 Truly worldwide in its coverage this English version of the 4th edition of the RGG makes this gold standard of encyclopedias accessible to the English speaking world Taking into account the latest research developments it offers a wide ranging and multi denominational approach to all aspects of the study of religion and theology **Subject Catalog, 1978** Library of Congress,1978 *Deutsches Bücherverzeichnis* ,1987
