

SOCIAL MEDIA LITERACY

WHAT AND WHERE ARE MIDDLE SCHOOLERS LEARNING ABOUT SOCIAL MEDIA?

In a mixed method study, we surveyed **229 school staff members** and **419 parents** from 4 school districts in the Northeast and interviewed 30 parents and 6 school staff members.

Most frequently discussed topics amongst educators:

49% of educators discussed how student technology use **interferes with sleep**

46% of educators discussed students **craving constant access to devices**

43% of educators discussed considering **how online posts affect others**

Most frequently discussed topics amongst parents:

With 92% of parents reporting discussing **stranger danger**, it was the most popular topic from our survey

90% of parents discuss **cyberbullying** and mean online behaviors

85% of parents warned their children of being influenced by **peer-induced risky behaviors** online (vaping, skipping school, alcohol, etc.)

FINDINGS

- Educators focused on the prevention of their students being victimized by their own addictive and self-regulatory behaviors while parents focused more on preventing their teens from unsafe or risk-taking online peer influences.
- The fact that educators and parents **focus on different aspects** of the digital wellbeing of the child could be turned into a strength of a home-school partnership that is not competing but **complementary** with one another.

Pro Social Media Literacy

Mary Alampi, Peter M. Comeau

Pro Social Media Literacy:

The Importance of Media Literacy Chrysalis Wright, Lesley-Anne Ey, K. Megan Hopper, Wayne Warburton, 2024-01-19

This book addresses both the potential negative effects and the positive effects of various forms of media leading to the need for media literacy across all demographics. Written for psychologists, educators, researchers, and parents, this book discusses the impact of video games, popular music, television, social media, and screen addiction, fake news, and misinformation representation in media, as well as the role of big tech in the lives of consumers. The text emphasises the need for a healthy media diet and focuses on the need for media literacy in all societal groups, providing empirically based approaches to teaching media literacy, as well as sample media literacy lesson plans. *ECSM 2017 4th European Conference on Social Media* Academic Conferences and Publishing Limited, 2017-07-03 Handbook of Prosocial Education Philip Brown, Michael W. Corrigan, Ann Higgins-D'Alessandro, 2012

Summary: This handbook introduces prosocial education as an umbrella term denoting the various ways in which all players in education impact student development. **The Social Media Debate**

Devan Rosen, 2022-02-17: This accessible, student-friendly book provides a concise overview of the primary debates surrounding the impact and effects of social media. From Facebook, Twitter, and Instagram to Snapchat and TikTok, social media has become part of our everyday experience. However, its proliferation has brought a myriad of serious concerns about the long-term effects of social media on socializing and personal relationships and the impact on well-being and mental health, particularly in relation to children and adolescents, as well as issues linked to information and culture, such as privacy, misinformation, and manipulation. Featuring contributions by leading international scholars and established authorities such as Christian Fuchs, Henry Jenkins, Michael A. Stefanone, and Joan Donovan, editor Devan Rosen brings together key contemporary research from multiple disciplines in order to provide crucial insight into these debates. This book will be an important resource for students and scholars of media and communication, as well as educators, parents, policy makers, and clinicians interested in the impacts of social media. Building Professional Nursing Communication Skills Jill

Lawrence, Cheryl Perrin, Eleanor Kiernan, 2015-07-03: This essential resource guides nursing students through the concepts integral to successful communication for the duration of their degree. **Educational Research and Innovation: What Does Child Empowerment Mean Today? Implications for Education and Well-being**

OECD, 2024-05-15: Childhood is changing in ways that we are still unpacking, affected by digitalization, globalization, and climate change, as well as shocks such as the COVID-19 pandemic. In many OECD education systems, child empowerment is increasingly an explicit aim of policies and practices. But it is often poorly defined, which risks turning it into a mere slogan. With the advancement of children's rights, children are increasingly being included as stakeholders in decision-making processes. This report gives examples of how children in OECD countries can and do participate in making decisions about issues that affect them. The report examines children's emotional well-being and physical activity and the role of schools as a physical space to create

and support relationships It also underlines the untapped potential of media education when it comes to seizing opportunities in childhood Empowering all children to make the most of digital opportunities starts with further narrowing the gap in terms of access to digital tools and the Internet where inequalities are persistent and pervasive So what does child empowerment mean today Empowered children have the opportunity and ability to act on issues important and relevant to them can learn by making mistakes and are key contributors to democracy

The Role of Social Media and the Effectiveness of Communication in HIV and AIDS Prevention Razlan Rauf, 2023-07-11 Master's Thesis from the year 2022 in the subject Communications Mass Media Universiti Sains Malaysia Mass Communication course Communication language English abstract This study aims to explore the predictive role of social media use on public preventive behaviours and how the disease knowledge and eHealth literacy moderates the relationship between social media use and preventive behaviours on HIV/AIDS in Malaysia contexts Specifically it appraises the effect of social media tools via the mass media on the HIV and AIDS in Malaysia The secondary goal is assessing the perceived advantages and limitations of utilizing social networking for HIV and AIDS communication To think about how to use social networking for health related communication and more particularly HIV/AIDS communication advertising practitioners have to note which factors contribute to which elements and effective communication hinder communication The first cases of HIV in Malaysia were reported in 1986 and there was a sharp increase in 10 cases by 1990 After scientists introduced three combinations of Antiretroviral ART treatments in 1995 there was a decrease in the HIV cases In 2018 the rate of new HIV cases in Malaysia was 10 cases per 100 000 population Of these cases a total of 47 patients involved individuals under the age of 18 No treatment can eliminate the virus as a whole but HIV can be prevented or given early treatment before the onset of AIDS So early detection and safety precaution to avoid being infected by the disease is essential Social media has essentially changed how people communicate and share information and health communication has indeed been immune to this information revolution With the advent of Facebook people without having to meet can interact with each other Nowadays many new media facilities such as the internet smartphones and others have given society a new dimension in understanding HIV/AIDS and its actions There is very little research on public awareness of HIV/AIDS and the role played by social media in dealing with this disease

Adolescence in Context Tara L. Kuther, 2020-08-04 From award winning author Tara L Kuther comes *Adolescence in Context* a topically oriented text that connects learners to the science that shapes our understanding of today's teenagers and young adults The book is organized around three core themes the centrality of context the importance of research and the applied value of developmental science The text presents classic research current research and foundational theories which Kuther frames in real life contexts such as gender race and ethnicity and socioeconomic status Students will come away with an understanding of the book's themes and material that they will immediately be able to apply to their own lives and future careers

Empowerment Through Media Education Ulla Carlsson, 2008

Communicating About Health: Current Issues and

Perspectives Athena DuPré, 2005 This text provides a research based thorough overview of health communication balancing theory with practical advice and examples that encourage students to further develop their own communication skills In a broad survey of the field approached from the perspectives of both caregiver and patient it offers solid coverage of the history of health care an examination of culture s role in health and healing and a look at current issues and challenges facing health care The new edition includes expanded coverage of diversity among patients and of the impact of technology on health care communication today American Education Annual Mary Alampi, Peter M. Comeau, 1998-09 This resource features original essays written by experts in the field supplemented with reprinted articles on approximately 60 of the key educational issues research and events of the previous year *The Social Studies Professional*, 2008

Media Literacy in Action Renee Hobbs, 2024-10-14 There s never been a more important time for students to develop media literacy competencies When students ask critical questions about the media they consume they develop fundamental knowledge and critical thinking skills that prepare them for life work and meaningful citizenship Media Literacy in Action addresses learners who are simultaneously active as both creators and consumers of media messages At the same time the book recognizes that everyone is vulnerable to media influence because of our dependence on the instant gratification and feelings of connectedness that digital platforms provide To thrive in a media saturated society people need to ask critical questions about what we watch see listen to read and use This book gives students those tools Key features of the second edition Critical examination of AI technologies algorithmic personalization data privacy and surveillance and the increased global regulation of digital platforms Attention to media literacy for empowerment and protection Inquiry oriented approach to learning that cultivates intellectual curiosity and creative expression Full color presentation with figures and photos to increase student engagement Each chapter includes Media Literacy Trailblazers Profiles of key thinkers and their theories connect students with the discipline of media literacy Media Literacy DISCourse NEW Visual representations of media literacy theoretical principles help learners internalize the practice of asking critical questions as they respond to specific media examples Learning in Action NEW Summary and vocabulary sections combine with Analyze Create Reflect and Act activities to empower students to apply ideas from each chapter Supplemental Materials available at www.mlaction.com Students can review key ideas learn about more Media Literacy Trailblazers and watch videos aligned with each chapter Instructors can access a Teacher s Guide of best practices in class activities homework and projects Also available are chapter summaries lecture slides YouTube playlists and test materials *Abstracts, 2004 Leisure Research Symposium, National Recreation and Park Association Congress*, 2004
