Black Baseball Entrepreneurs, 1860-1901 Michael E. Lomax,2003-04-01 Here is the first in depth account of the birth of black baseball and its dramatic passage from grass roots venture to commercial enterprise In the late nineteenth century resourceful black businessmen founded ball teams that became the Negro Leagues Racial bias aside they faced vast odds from the need to court white sponsors to negotiating ball parks With no blacks in cities they barnstormed small towns to attract fans

employing all manner of gimmickry to rouse attention Drawing on major newspapers and obscure African American journals the author explores the diverse forces that shaped minority baseball He looks unflinchingly at prejudice in amateur and pro circles and constant inadequate press coverage He assesses the impact of urbanization migration and the rise of northern ghettos and he applauds those bold innovators who forged black baseball into a parallel club that appealed to whites yet nurtured a uniquely African American playing style This was black baseball's finest hour at once a source of great ethnic pride and a hard won pathway for integration into the mainstream

Chicken Soup for the Sports Fan's Soul Jack Canfield, 2000 For pure exhilaration and drama there's nothing quite like sports It's the crack of the bat as it connects with the baseball hurtling it into the bleachers for a home run the swish of the basketball as it drops into the net for a three point play at the buzzer the roar of the crowd as the quarterback delivers a perfect spiral pass for the winning touchdown Most importantly sports bring out the best in the human spirit There is an intensity and a richness inherent in every sporting experience that amplifies our emotions and our connection with the moment and indeed with ourselves This latest collection of Chicken Soup honors all that is good in the world of sports From major leaguers to little leaguers from hockey stars to figure skaters and from horseracing to mushing the stories in this book highlight the positive and transformative nature of sports Readers will come to see sports as one of our most important and powerful teachers They can teach us to focus and stay the course or to develop a new strategy and rededicate ourselves to a goal They can teach us to be humble in victory and gracious in defeat They can teach us the importance of teamwork and remind us that we must strive to give our individual all At their best sports will build us up and they will wear us down they will build character and teach us to overcome adversity This book is for anyone who has ever enjoyed watching or participating in any sport from the professional athlete to the weekend warrior from the soccer mom to the diehard sports fan from the marathon runner to the neighborhood jogger

Branch Rickey Lee Lowenfish, 2022-08-15 He was not much of a player and not much more of a manager but by the time Branch Rickey 1881-1965 finished with baseball he had revolutionized the sport not just once but three times In this definitive biography of Rickey the man sportswriters dubbed The Brain The Mahatma and on occasion El Cheapo Lee Lowenfish tells the full and colorful story of a life that forever changed the face of America's game As the mastermind behind the Saint Louis Cardinals from 1917 to 1942 Rickey created the farm system which allowed small market clubs to compete with the rich and powerful Under his direction in the 1940s the Brooklyn Dodgers became truly the first America's team By signing Jackie Robinson and other black players he single handedly thrust baseball into the forefront of the civil rights movement Lowenfish evokes the peculiarly American complex of God family and baseball that informed Rickey's actions and his accomplishments His book offers an intriguing richly detailed portrait of a man whose life is itself a crucial chapter in the history of American business sport and society

Shrader,1992-04-30 This impassioned critique of contemporary mass culture argues that the media particularly television as the spearhead of electronic communications technology contributes to the pervasive demoralization of the American public By stimulating the

public with an endless stream of enticing essentially unattainable illusions the media produce what William K Shrader calls the experiential bind a phenomenon rooted in the incongruity between the two juxtaposed realms of vicarious and firsthand experience The internalized bind causes a chronically irritated self ideal discrepancy producing morbid guilt This condition is familiar to mental health specialists and is frequently invoked to explain the erratic and socially destructive behavior patterns of the mentally ill Following a brief introduction Chapter 1 describes the experiential bind and the media s imagery of unreality This imagery is analyzed from two essential aspects 1 the imagery of fantasy which predominates in prime time network entertainment programming on television and in the majority of Hollywood movies and 2 the imagery of doom which predominates on television news programs shown in large cities across America every evening of the week Chapter 2 is an elaboration of psychodynamic considerations specifically how both aspects of unreality affect such human characteristics as self esteem feelings of inadequacy guilt and narcissism Chapter 3 continues with societal reverberations including loss of community involvement and rampant consumerism Chapter 4 turns to rehabilitation and prevention drawing on Shrader s experience as a clinical psychologist and therapist counselor Chapter 5 is concerned with the emergence of a technological society and its contribution to materialism in America The final chapter presents concluding thoughts involving especially the author s theme that hedonistic materialism is America s Achilles Heel Media Blight and the Dehumanizing of America is suitable for the general reader and will be particularly useful to scholars of social behavioral and clinical psychology and mass communications
