Window Light Portraits

Opposite page: Dark, natural light on the side of the building creates a dramatic look, with highlights and a few sun rays on the opposite side.

At right: By not having your subject face the window directly, you can then position the subject slightly to the side so the light that comes through the window illuminates the subject from the opposite direction of the window, creating a soft, even, and dramatic light.

At the bottom: Window light photo. "Window light" was taken at the side of their house with a camera that is connected to the car with the blind shades. At the side, because they are not facing the window, the window light illuminates the side of the car and illuminates the window. Windows and blinds add a natural window lighting that is able to create a soft, even, and a square look, featuring the window light on the side.

At the bottom right: Photo of a man in a suit, sitting in a chair, with a window light illuminating his face. He is sitting in a chair, with a window light illuminating his face. The window light illuminates his face, and the window light illuminates the side of his face, creating a soft, even, and a square look, featuring the window light on the side.

International Marketing, Google eBook Masaaki (Mike) Kotabe, Sween Hoon Ang, Kathleen Griffiths, Al Marshall, Ranjit Voola, Kristiaan Helsen, 2012-02-02

International Marketing Third Asia Pacific edition has been updated to reflect contemporary developments and examples in international marketing. The text retains the strengths of the original Global Marketing Management text by Masaaki Kotabe and Kristiaan Helsen and is presented in an engaging and accessible style. International Marketing Third Asia Pacific edition aims to help Australasian students understand contemporary international marketing activities and issues in an increasingly competitive marketplace
Tech Giants, Artificial Intelligence, and the Future of Journalism Jason Paul

Whittaker, 2019-02-11 This book examines the impact of the Big Five technology companies Apple, Alphabet, Google, Amazon, Facebook and Microsoft on journalism and the media industries. It looks at the current role of algorithms and artificial intelligence in curating how we consume media and their increasing influence on the production of the news. Exploring the changes that the technology industry and automation have made in the past decade to the production, distribution and consumption of news globally, the book considers what happens to journalism once it is produced and enters the media ecosystems of the internet tech giants and the impact of social media and AI on such things as fake news in the post-truth age. The audience for this book are students and researchers working in the field of digital media and journalism studies or media studies more generally. It will also be useful to those who are looking for extended case studies of the role taken by tech giants such as Facebook and Google in the fake news scandal or the role of Jeff Bezos in transforming The Washington Post. The Open Access version of this book available at <https://doi.org/10.4324/9781351013758> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
