Mujer Nueva:

Art and Revolution in Latin America, 1910-1990 David Craven, 2006-01-01 In this uniquely wide ranging book David Craven investigates the extraordinary impact of three Latin American revolutions on the visual arts and on cultural policy. The three great upheavals in Mexico 1910-40, in Cuba 1959-89 and in Nicaragua 1979-90 were defining moments in twentieth century life in the Americas. Craven discusses the structural logic of each movement's artistic project by whom, how and for whom artworks were produced and assesses their legacies. In each case he demonstrates how the consequences of the revolution reverberated in the arts and cultures far beyond national borders. The book not only examines specific artworks originating from each revolution's attempt to deal with the challenge of socializing the arts but also the engagement of the working classes in Mexico, Cuba and Nicaragua with a tradition of the fine arts made newly accessible through social transformation. Craven considers how each revolution dealt with the pressing problem of creating a dialogical art, one that reconfigures the existing artistic resource rather than one that just reproduces a populist art to keep things as they were. In addition, the author charts the impact on the revolutionary processes of theories of art and education articulated by such thinkers as John Dewey and Paulo Freire. The book provides a fascinating new view of the Latin American revolutionaries from artists to political leaders who defined art as a fundamental force for the transformation of society and who bequeathed new ways of thinking about the relations among art, ideology and class within a revolutionary process. *Women, Feminism, and Social Change in Argentina, Chile, and Uruguay, 1890-1940* Asuncion Lavrin, 1998-01-01

Feminists in the Southern Cone countries Argentina, Chile and Uruguay between 1910 and 1930 obliged political leaders to consider gender in labor regulation, civil codes, public health programs and politics. Feminism thus became a factor in the modernization of these geographically linked but diverse societies in Latin America. Although feminists did not present a unified front in the discussion of divorce, reproductive rights and public health schemes to regulate sex and marriage, this work identifies feminism as a trigger for such discussion which generated public and political debate on gender roles and social change. Asuncion Lavrin recounts changes in gender relations and the role of women in each of the three countries, thereby contributing an enormous amount of new information and incisive analysis to the histories of Argentina, Chile and Uruguay.

Haya de la Torre and the Pursuit of Power in Twentieth-Century Peru and Latin America Iñigo García-Bryce, 2018-08-06 Like Fidel Castro and Che Guevara, Peruvian Victor Raúl Haya de la Torre (1895-1979) was one of Latin America's key revolutionary leaders, well known across national boundaries. Iñigo García-Bryce's biography of Haya chronicles his dramatic political odyssey as founder of the highly influential American Popular Revolutionary Alliance (APRA) as a political theorist whose philosophy shifted gradually from Marxism to democracy and as a seasoned opposition figure repeatedly jailed and exiled by his own government. García-Bryce spotlights Haya's devotion to forging populism as a political style applicable on both the left and the right and to his vision of a pan-Latin American political movement. A great orator who addressed

gatherings of thousands of Peruvians Haya fired up the Aprismo movement seeking to develop Indo America by promoting the rights of Indigenous peoples as well as laborers and women Steering his party toward the center of the political spectrum through most of the Cold War Haya was elected president in 1962 but he was blocked from assuming office by the military which played on his rumored homosexuality Even so Haya's insistence that political parties must cultivate Indigenous roots and oppose violence as a means of achieving political power has left a powerful legacy across Latin America

Motherhood, Social Policies and Women's Activism in Latin America Alejandra Ramm, Jasmine Gideon, 2019-07-10 This book is a critical resource for understanding the relationship between gender social policy and women's activism in Latin America with specific reference to Chile Latin America's mother-centered kinship system makes it an ideal field in which to study motherhood and maternalism the ways in which motherhood becomes a public policy issue As maternalism embraces and enhances gender differences it has been criticized for deepening gender inequalities Yet invoking motherhood continues to offer an effective strategy for advancing women's living conditions and rights and for women themselves to be present in the public sphere In analyzing these important relationships the contributors to this volume discuss maternal health sexual and reproductive rights labor programs paid employment women miners unionization housing policies environmental suffering and LGBTQ intimate partner violence

Gendered Compromises Karin Alejandra Rosemblatt, 2003-06-19 With this book Karin Rosemblatt presents a gendered history of the politics and political compromise that emerged in Chile during the 1930s and 1940s when reformist popular front coalitions held power While other scholars have focused on the economic realignments and novel political pacts that characterized Chilean politics during this era Rosemblatt explores how gender helped shape Chile's evolving national identity Rosemblatt examines how and why the aims of feminists socialists labor activists social workers physicians and political leaders converged around a shared gender ideology Tracing the complex negotiations surrounding the implementation of new labor health and welfare policies she shows that professionals in health and welfare agencies sought to regulate gender and sexuality within the working class and to consolidate the male-led nuclear family as the basis of societal stability Leftists collaborated in these efforts because they felt that strong family bonds would generate a sense of class belonging and help unify the Left while feminists perceived male familial responsibility as beneficial for women Diverse actors within civil society thus reworked the norms of masculinity and femininity developed by state agencies and political leaders even as others challenged those ideals
