Multicultural Lesson Plans:

Turning on Learning Carl A. Grant, Christine E. Sleeter, 2008-10-28 With a wealth of ready to use lesson plans for grade levels K-12 covering a variety of subject areas *Turning on Learning* Fifth Edition shows students how to apply the principles of multicultural education in the classroom. This practical lesson based companion to Sleeter and Grant's *Making Choices for Multicultural Education* Five Approaches to Race, Class and Gender features additional lesson plans and new resource material along with updates of existing lesson plans.

Take Action! Lori Langer de Ramirez, 2009 *Take Action* Lesson Plans for a Multicultural Classroom is for all teachers striving to meet the needs of students in today's diverse K-12 classrooms. *Take Action* offers 27 practical step by step multicultural lesson plans organized around seven microcultures: culture and identity, race and ethnicity, abilities and disabilities, religion, socioeconomic status, language and gender, and sexuality. Each chapter includes three lesson plans at three different grade levels: elementary, middle, and secondary. Each lesson plan is presented with an accessible and predictable format, outlines the content areas addressed, provides a recipe-style list of materials for all the activities in the lesson plan and action projects, and so much more. Connections to national professional standards and benchmarks for K-12 education as outlined by the Mid-continent Research for Education and Learning are also included in every lesson plan. FEATURES: Lesson Plan Video, the Take Action DVD located in the front of the book, provides readers with 9 video clips of Standards Matrix A. Lesson Preparation for the Teacher section provides activities every teacher should do prior to working on any of the lessons that follow. This section includes One Teacher's Reflection. These are stories written by teachers who reflect on specific incidents related to the chapter topic. These stories come from their own classroom and are meant to stimulate thinking about the connection between theory and practice. Teacher Action Project: These teacher action projects are meant to inspire deeper, more global connections between the teacher and the chapter topic. Teachers might be prompted to visit other classrooms, other schools, or other communities. The projects are meant to expose teachers to the chapter topics in a more visceral way than if the preparation had only been through reading Suggested Readings and Resources. This section provides the teacher with further reading materials, websites, and references, extending the action projects by providing teachers with more tools for developing further lessons and projects for their own students. FULL LESSON PLANS: Three complete lesson plans in each chapter provide novice and experienced teachers with step-by-step lesson plans. Presenting a predictable and accessible format, each lesson plan includes the following information: Grade levels: Lessons are divided among three categories: Elementary (K-5), Middle School (6-8), and High School (9-12) lessons, with one example of each level provided for each topic. Chapter: Though teachers should feel comfortable adapting the lessons to work in their own school context. Content areas addressed: A list of subject or content areas that are touched upon in the lesson and/or action project. Topic: A brief description of the main topic or topics to be addressed in the lesson. Rationale for Using This Lesson: This section seeks to answer the "why bother" question when deciding what curriculum to include in one's

class It provides a sense of the importance of the topic of the lesson Background Information Provides the teacher and the students with some necessary information about the main topic s in the lesson Goals Aims Gives the teacher a sense for what s he can expect students to be able to accomplish or do during the lesson and or as a result of the action project Connections to Standards Links to national standards for all the content areas that are included in the lesson The national standards used in the book were culled from national professional organizations specific to each subject area as well as the excellent compendium of content standards and benchmarks for K 12 education located on the McRel Mid continent Research for Education and Learning website www.mcrel.org Materials A recipe style list of the materials needed to do all of the activities in the lesson and action project A step by step Activity Includes description of the tasks or activities in the lesson Action project A task that helps translate the topic of the lesson into a project that helps benefit the class the school or the community Reflection Questions for the teacher to reflect on after having presented the lesson to students These questions may serve as prompts for discussion with colleagues or as topics for reflective journal entries Resource Page Photocopyable handout pages that are connected to the lesson **Turning on Learning** Carl A. Grant,1998-01-15 This is a very applied companion text to Making Choices for Multicultural Education by Sleeter especially on the Social Reconstructionist approach advocated in Making Choices for Multicultural Education This text educates readers on how to take existing lesson plans and re work them to become multicultural A discussion explaining why the changes were made follows each lesson plan

Becoming a Multicultural Educator William A. Howe, Penelope L. Lisi, 2014 *Becoming a Multicultural Educator* is a core textbook for use by pre-service and in-service PK-12 educators in courses on multicultural education diversity. The text addresses how teachers can incorporate the knowledge they gain about other cultures into their classroom practice. In meeting the need of training teachers better in how to work with a diverse population, this text offers both solid theory and a very user-friendly practice component that focuses on showing teachers how to apply that theory effectively in the classroom. The book begins by focusing on essential questions and theoretical concepts about multicultural education, then leads readers through experiences to heighten their own cultural awareness, knowledge base, and skills set, and concludes with demonstrating how teachers can apply the concepts in classroom and schoolwide settings.
