## **Multicultural Aspects Of Disabilities:**

*Multicultural Aspects of Disabilities* Willie V. Byran, 2007 This book is an effort to bring to the attention of helping professionals the need to give significant consideration to cultural factors in their efforts to develop effective rehabilitation plans for persons of color with disabilities. This book goes beyond increasing awareness by offering information with regard to intervention strategies. It is hoped that this book will assist helping professionals become better acquainted with the impact that culture has on the client and the impact it will have in the helping process. This second edition continues the theme of providing information with regard to *Multicultural Aspects of Disabilities* Willie V. Bryan, 1999. Recognizing the clinician's need for quick access to a comprehensive and immediately useful presentation of evidence based material the authors and editors have condensed the research on the most common otorhinolaryngological complaints into this indispensable volume. Their unique approach color codes the level of research backing each set of evidence in order to make assessment of the evidence as quick and useful as possible. Each clinical problem is presented with a color key letting the physician know the level of evidence available: green (high level evidence), yellow (low moderate levels of evidence) or red (major disagreement or only minimal low level evidence). The content of each chapter is structured in the same manner so the reader quickly becomes accustomed to finding precisely the information needed for each new case. Featuring sections on general otolaryngology, head and neck surgery, pediatrics and otology, Evidence Based Otolaryngology not only presents the research but gives the clinician immediately applicable recommendations for patient treatment.

**MULTICULTURAL ASPECTS OF HUMAN BEHAVIOR** Willie V. Bryan, 2014-04-01 This third edition has a title modification in that the previous two editions were titled *Multicultural Aspects of Disabilities A Guide to Understanding and Assisting Minorities in the Rehabilitation Process*. This edition is titled *Multicultural Aspects of Human Behavior A Guide to Understanding Human Cultural Development*. The reason for the title modification is to expand and emphasize cultural impacts with regard to human behavior and in doing so the goal is to identify factors which impact cultural development and cultural perceptions of various groups of people such as persons with disabilities, ethnic racial minorities, women, the elderly as well as gays, lesbians and people of different religious denominations. Each chapter has an informative outline of the content. Chapters 1 and 2 establish the meaning of culture and understanding the human behavior. Chapter 3 addresses discrimination. Chapter 4 discusses religion. Chapters 6-9 review the African, Asian, Hispanic Americans and the American Indians. Chapter 10 presents some history of the battles women have faced throughout the years. Chapter 11 addresses the African, Asian, Hispanic American and American Indian elderly. The concluding chapter defines the gay, lesbian, transgender and bisexual people and their cultural evolution. This third edition continues the theme of providing information with regard to factors that impact the lives of racial, ethnic minorities as well as women and the elderly in America; however, the updates and addition of new chapters will make the text a more complete discussion of cultural information needed by professional helpers as they work with their clients.
