Multicultural Children In The Early Years Creative Teaching Meaningful Learning:

Multicultural Children in the Early Years Peter Woods, Mari Boyle, Nick Hubbard, 1999-01-01 How do multicultural children and their parents experience the very beginning of their school careers How do teachers mediate the demands of the educational system and how do the children adapt What kind of access to the National Curriculum is offered to multicultural children In answering these questions the authors draw on two years intensive research in three multi ethnic institutions They explore teachers values and beliefs and how they attempt to put them into practice They describe how at times teachers were constrained to get things done because of pressures operating on them but at other times taught creatively in a way particularly relevant to the children s concerns and cultures

Creative Learning in the Primary School Bob Jeffrey, Peter Woods, 2009-01-08 Creative Learning in the Primary School uses ethnographic research to consider the main features of creative teaching and learning within the context of contemporary policy reforms In particular the authors are interested in the clash between two oppositional discourses creativity and performativity and how they are resolved in creative teacher practice The book complements previous work by these authors on creative teaching by giving more consideration to creative learning The first section of the book explores the nature of creative teaching and learning by examining four key features relevance control ownership and innovation The authors devote a chapter to each of these aspects outlining their properties and illustrating them with a wide range of examples mainly from recent practice in primary schools The second section presents some instructive examples of schools promoting creative learning and how creative primary schools have responded to the policy reforms of recent years The chapters focus specifically on how pupils act as a powerful resource for creative learning for each other and for their teachers how teachers have appropriated the reforms to enhance their creativity and how one school has moved over a period of ten years from heavy constraint to high creativity The blend of analysis case study material and implications for practice will make this book attractive to primary teachers school managers policy makers teacher educators and researchers

Creativity in Education Anna Craft, Bob Jeffrey, Mike Leibling, 2001-04-01 A rounded comprehensive guide to issues of practice pedagogy and policy concerned with creative education

Developing Teachers and Teaching Practice Christopher Day, Ciaran Sugrue, 2004-01-14 Pressure is increasing on all those involved in education from teachers to policy makers to transform schools as organisations while continuing to implement effective new approaches to teaching and learning The demand is not only to reach attained targets but also to be accountable for teaching methods Developing Teachers and Teaching Practice brings together a selection of papers given at the ninth conference of the International Study Association of Teachers and Teaching ISATT The collection takes as a central theme the issue of education as a key concern within the international rhetoric of globalisation The book offers insights in to the nature of teaching and learning including the key new research area of emotions It then goes on to explore the nature of teacher learning before looking at the impact of major policy initiatives on the work of teachers internationally Developing
