Character Education Holly Shepard Salls, 2007 Character Education juxtaposes John Dewey's philosophy of the person and values education with Alasdair MacIntyre's treatment of Aristotle's virtue theory in order to highlight the importance of virtue in developing good character. The initial overview of character education from colonial times to the present provides a context for understanding character formation and education taking place now. Salls' own contributions to the topic temper the text with her practical suggestions about character education for educators and administrators. The years she has spent as a teacher of character lend Character Education the wisdom and experience of a seasoned educational practitioner.

The 5 Disciplines of Inclusive Leaders Andrés T. Tapia, Alina Polonskaia, 2020-10-20 Diversity initiatives are falling short. This book shows leaders how to develop the skills needed to build sustainably inclusive organizations using a tested research-based model developed by the global organizational consulting firm Korn Ferry. According to the journal Human Resource Management, companies are spending over 8 billion a year on diversity programs. Yet today the senior leadership teams at Fortune 500 companies are far from mirroring the diversity of its workforce and its customers. Andrés Tapia and Alina Polonskaia, senior leaders at Korn Ferry, argue that to build sustainable diversity and inclusion, organizations need to have inclusive leaders at all levels. In this book, Tapia and Polonskaia draw on Korn Ferry's massive database of 3 million leadership assessments to reveal the essential qualities of inclusive leaders. They discuss the personality traits these leaders share and detail how to develop what they call the five disciplines of inclusive leadership: building interpersonal trust, integrating diverse perspectives, optimizing talent, applying an adaptive mindset, and achieving transformation. Tapia and Polonskaia also outline the competencies behind each discipline, describe individual and organizational exemplars of inclusive leadership, and show how the five disciplines enable leaders to unleash the power of all people and to build both structurally and behaviorally inclusive organizations. This book will help leaders foster the skills to deal with today's complex challenges and create a more inclusive, sustainable, and prosperous future for all of us.
