Jing Xu Islam and Popular Culture Karin van Nieuwkerk, Mark LeVine, Martin Stokes, 2016-04-12 Popular culture serves as a fresh and revealing window on contemporary developments in the Muslim world because it is a site where many important and controversial issues are explored and debated. Aesthetic expression has become intertwined with politics and religion due to the uprisings of the Arab Spring while at the same time Islamist authorities are showing increasingly accommodating and populist attitudes toward popular culture. Not simply a westernizing or secularizing force as some have asserted, popular culture now plays a growing role in defining what it means to be Muslim. With well structured chapters that explain key concepts clearly, Islam and Popular Culture addresses new trends and developments that merge popular arts and Islam. Its eighteen case studies by eminent scholars cover a wide range of topics such as lifestyle, dress, revolutionary street theater, graffiti, popular music, television, drama, visual culture and dance throughout the Muslim world from Indonesia, Africa and the Middle East to Europe. The first comprehensive overview of this important subject, Islam and Popular Culture offers essential new ways of understanding the diverse religious discourses and pious ethics expressed in popular art productions, the cultural politics of states and movements and the global flows of popular culture in the Muslim world.

Routledge International Handbook of Diversity Studies Steven Vertovec, 2014-11-20 In recent years the concept of diversity has gained a leading place in academic thought, business practice and public policy worldwide. Although variously used, diversity tends to refer to patterns of social difference in terms of certain key categories. Today the foremost categories shaping discourses and policies of diversity include race, ethnicity, religion, gender, disability, sexuality and age. Further important notions include class, language, locality, lifestyle and legal status. The Routledge Handbook of Diversity Studies will examine a range of such concepts along with historical and contemporary cases concerning social and political dynamics surrounding them. With contributions by experts spanning Sociology, Anthropology, Political Science, History and Geography, the Handbook will be a key resource for students, social scientists and professionals. It will represent a landmark volume within a field that has become and will continue to be one of the most significant global topics of concern throughout the twenty-first century.

Rethinking Europe's Constitution A. A. M. Kinneging, 2007 **Autobiography of intercultural encounters** Martyn Barrett, Michael Byram, 2022-11-30 A tool for developing intercultural competence and facilitating the emergence of intercultural citizenship in those who use it. In the contemporary world, encounters with people from other cultural backgrounds have become part of our everyday lives. These intercultural encounters may be used as an opportunity to learn about other cultures to develop our capacities for effective and respectful communication to think about our own.

cultural affiliations and to reflect on ways in which we might take action for the common good The Autobiography of intercultural encounters AIE is an educational resource that can be used by learners to achieve all of these outcomes It supports learners in thinking about and learning from intercultural encounters that they have experienced either face to face through visual media such as television films magazines or through the internet Revised and updated editions of the various versions of the AIE that have been developed can be found in three separate volumes which accompany the present volume The present volume contains two accompanying papers Context concepts and theories and Concepts for discussion The former discusses the policy context and conceptual and theoretical issues relating to intercultural encounters and is intended for readers who wish to understand the ideas that underlie the design of the AIE The latter provides less technical discussions of key concepts related to culture identity and intercultural encounters and can be used with learners in upper secondary education or the early years of higher education and in non formal and informal education
