Multinationals And Technology Transfer The Canadian Experience:

Multinationals and Technology Transfer Alan M. Rugman,1983 **Multinationals and Technology Transfer** Alan M. Rugman,1983-05-01 **Managing the Multinational Subsidiary** Hamid Etemad,Louise Séguin Dulude,2018-04-17 This book first published in 1986 is concerned with the changing world environment for multinational business and the relationships between multinational parent companies and their subsidiaries which will be necessary to meet the challenges that are being faced The study argues that key changes to the environment are the revolution in manufacturing which has permitted cheap production in one location of complicated products for a world market world product mandating whereby all a company's country subsidiaries produce different product lines for the world market pressure and incentives from host governments for technology transfer in their favour and for research and development facilities within their territory the growth of highly efficient international trading and distribution intermediaries and the complications of increased barter trade arising from international debt problems and currency shortages All this means that the management of multinational subsidiaries has to change This book reviews the challenges and shows a way forward **Transnational Corporations and Innovatory Activities** John Cantwell,1994 Multinational Enterprise and Economic Analysis Richard E. Caves,1996-01-26 This book surveys the contributions that economic analysis has made to our understanding of why multinational enterprises exist **International Business: Strategic management of multinationals** Alan M. Rugman,2002 This comprehensive four volume set includes all major contributions to the field of international business It also includes key writings in the areas of international political economy and on regional and national issues *The Making of Global Enterprise* Geoffrey Jones,1994 This volume provides new insights to the history of international business The international group of authors drawn from the United States Canada Britain and Japan address two main themes How has global business developed over the last century And what has been its impact on host economies These original and wide ranging essays prefaced by an extensive editorial introduction are required reading in courses on international business **The Theory of Multinational Enterprises** The late Alan M. Rugman,1996-01-01 The articles in this volume explore aspects of multinational enterprises apply the theory of internalization to North America Europe Japan Rugman provides the reader with insights into the intellectual personal history of the papers *The Dynamics of Global Cooperation and Competition* ,1994

Multinationals, Technology, and National Competitiveness Marina Papanastassiou,Robert D. Pearce,1999 Examines the effects of multinationals on the competitiveness of industry in the UK showing how these firms gain access to technology and questioning whether multinationals improve the potential and competitiveness of local industry Discusses theories of multinationals then examines what these theories imply for efficiency and welfare and looks at policies which affect multinationals Examines the role of multinationals in the UK and the role of decentralized research and development in multinationals **Multinational Corporations in North America** Michael J Twomey,1992 Canadian-American

Economic Relations Kent State University. Graduate School of Management, Kent State University. Department of Economics, 1988-10-26 This volume brings together leading academic experts from the U.S. and Canada to explore the crucial economic relationship between their two countries each of whom is the other's largest trading partner. The essays all specially written for this study provide an integrated balanced examination of the strengths and weaknesses inherent in the relationship and discuss reasons for the increasing difficulties experienced in the past few years. An indispensable supplement for courses in international business and regional economics the study will also provide economists political scientists and environmentalists with important new insights into this most critical relationship. Following an overview of the economic structure of the two nations the contributors focus upon three general areas of Canadian American economic relations. The section on natural resources and related issues presents an up to date view of energy and environmental considerations and explores shared problems of agricultural competitiveness. Turning to a discussion of trade issues the contributors analyze the effects of the October 1987 accord address the impact of the U.S. balance of payments position on Canadian economics and examine ways in which each country can expand its international trade. Finally a group of essays on taxes financial markets and bilateral investment offers an in depth treatment of issues such as U.S. direct investment in Canadian manufacturing the development of an integrated North American venture capital market and investment patterns. Numerous tables and figures amplify the discussions.

Technological Change in Canadian Industry D. G.

McFetridge, Royal Commission on the Economic Union and Development Prospects for Canada, 1985 The papers in this volume of the Commission's research series discuss the sources rate and nature of technological change and its effect on Canadian industry.

Economics Working Paper University of Michigan--Dearborn. College of Arts, Sciences and Letters, 1991 *Analysis of Multinational Strategic Management* Alan M. Rugman, Alain Verbeke, 2005 Characterized by new analytical insights and methods in the field of international business this collection of articles by Alan Rugman and Alain Verbeke celebrates their long and productive work together on issues facing top managers of multinational enterprises. Fueled by their belief in the need for better theory in multinational strategic management the authors have explored a number of different facets in this increasingly important realm. They have organized the work into five sections the foundations of a new theory of multinational strategic management a radically new examination of multinational strategic management national competitiveness the relatively under researched but increasingly important issue of environmental strategies of multinational enterprises and the interactions between multinational strategic management and public policy. This outstanding collection inspired by the occasion of Alan Rugman's 60th birthday will be of great interest to scholars and practitioners of international business and management as well as to economists and lawyers.

The Canadian Trade and Investment Guide, 1989, 1989 Multinational Corporations Mark Casson, 1990 This book provides an invaluable state of the art survey of the most important work on multinational corporations. It includes the first English translation of a key work

by Stephen Hymer which transforms our understanding of the evolution of the modern theory of multinational corporations. The integration of multinationals into theories of trade and factor movements is an underlying theme. There is an extensive review of the comparative performance of American, Japanese and European multinationals within an historical perspective.

Technology Management and International Business Ove Granstrand, Lars H?kanson, S?ren Sj?lander, 1992-08-11
This is an edited selection of revised papers originally prepared for an international research conference designed to bring together perspectives from economists, engineers and business management professionals while stimulating further work in the field.
