Developing Play and Drama in Children with Autistic Spectrum Disorders Dave Sherratt, Melanie

Peter, 2012-09-10 Learning through play is a well established principle that underpins much educational practice yet it is often overlooked in association with children with autistic spectrum disorders This book considers the wide ranging benefits of developing play and taking it into drama with these children The authors demonstrate how to implement such approaches via a highly practical structured developmental framework within which participants may gradually learn to be creative They also discuss the psychology and pedagogy of autism in relation to play and drama and connect them to everyday learning situations using a wealth of examples This accessible approach to play and drama can offer a powerful memorable integrating way forward for children with autistic spectrum disorders and enjoyable fun opportunities for teaching and learning

Introductory Relational Database Design for Business, with Microsoft Access Jonathan Eckstein, Bonnie R. Schultz, 2017-11-09 A hands on beginner s guide to designing relational databases and managing data using Microsoft Access Relational databases represent one of the most enduring and pervasive forms of information technology Yet most texts covering relational database design assume an extensive sophisticated computer science background There are texts on relational database software tools like Microsoft Access that assume less background but they focus primarily on details of the user interface with inadequate coverage of the underlying design issues of how to structure databases Growing out of Professor Jonathan Eckstein s twenty years experience teaching courses on management information systems MIS at Rutgers Business School this book fills this gap in the literature by providing a rigorous introduction to relational databases for readers without prior computer science or programming experience Relational Database Design for Business with Microsoft Access helps readers to quickly develop a thorough practical understanding of relational database design It takes a step by step real world approach using application examples from business and finance every step the way As a result readers learn to think concretely about database design and how to address issues that commonly arise when developing and manipulating relational databases By the time they finish the final chapter students will have the knowledge and skills needed to build relational databases with dozens of tables They will also be able to build complete Microsoft Access applications around such databases This text Takes a hands on approach using numerous real world examples drawn from the worlds of business finance and more Gets readers up and running fast with the skills they need to use and develop relational databases with Microsoft Access Moves swiftly from conceptual fundamentals to advanced design techniques Leads readers step by step through data management and design relational database theory multiple tables and the possible relationships between them Microsoft Access features such as forms and navigation formulating queries in SQL and normalization Introductory Relational Database Design for Business with Microsoft Access is the definitive guide for undergraduate and graduate students in business finance and data analysis without prior experience in database design While Microsoft Access is its

primary hands on learning vehicle most of the skills in this text are transferrable to other relational database software such as MySQL

Contemporary Art and the Display of Ancient Egypt Alice Stevenson, 2025-01-16 Artistic interventions are now a popular means of delivering fresh perspectives on museum displays including in galleries devoted to ancient Egypt Installations are commonly said to put the past and present into dialogue with each other offering external critical voices on the work of decolonisation *Contemporary Art and the Display of Ancient Egypt* argues that the contemporary and the ancient do not necessarily inform each other Instead they are mediated by and mediations of the museum that produces them Rather than explore how contemporary artists have been inspired by Egypt this book examines how they have shaped the language and discourse around study of the Egyptian past by looking at the wider field of public display in which both have been historically situated Building on this critical history of practice the book draws from experiments in bringing contemporary artistic sculptures conceptual pieces multimedia films sounds smells and performances into galleries at the British Museum in London the Egyptian Museum in Turin and the State Museum of Egyptian Art in Munich These are used to explore what contemporary art does in these spaces the motivations for inviting artists in and the legacies of those interventions It ends with a reflection on how academics and curators can be involved in the creative process and how artists contribute to academic research Praise for *Contemporary Art and the Display of Ancient Egypt* This is an important and innovative study on the recent history of incorporating art installations in galleries of Egyptian antiquities Offering a thoughtful critical analysis of the ways in which contemporary art and ancient artefacts are juxtaposed in museum settings the book calls for a more nuanced and politically engaged practice of collaboration between artists and Egyptologists Stephanie Moser University of Southampton Archaeologist Alice Stevenson provides a thoughtful consideration of the goals and intent behind contemporary art interventions in exhibitions of ancient Egyptian art She challenges the curators scholars and museum professionals who design these exhibitions to move beyond the simplistic ancient art contemporary art juxtaposition and instead use contemporary art interventions to create spaces for both artistic and academic insight and inspiration I look forward to such dialogue Kara Cooney UCLA
