*Så megen længsel på så lille en flade* Karl Knausgård, 2018-01-26 Edvard Munch er en af Norges store kunstnere Karl Ove Knausgård har ved flere anledninger skrevet om billedkunst og kunstnere og i denne bog nærmere han sig Munchs billeder i et forsigtigt forstørrelse der er på spil i dem og hvad de betyder for os i dag Men først og fremmest skriver han om sit eget

personlige forhold til Munch og ikke mindst stiller han spørgerne let Hvad er kunst **The Drama of History** Kristin Gjesdal, 2021 The Drama of History plumbs the rich relationship between drama and philosophy Kristin Gjesdal offers a lively and accessible discussion of the philosophical aspects of Henrik Ibsen's work She shows how well known nineteenth century philosophers such as Hegel and Nietzsche develop their thoughts in interaction with the dramatic arts At the heart of this interaction is a shared interest in exploring the existential condition of human life as lived and experienced in history In this sense Gjesdal engages philosophy's capacity beyond its narrow academic confines **Munch** Poul Erik Tøjner, Edvard

Munch, 2001 Just as Leonardo da Vinci studied the recesses of the human body and dissected cadavers I try to dissect souls said Edvard Munch 1863-1944 Norway's greatest artist and tortured genius In this groundbreaking new study Munch's own soul is laid bare through the first English translation and analysis of diaries literary sketches and letters presented together with his most important artistic works Preserved in the archives of the Munch Museum in Oslo to which they were presented by the artist himself Munch's writings give a unique insight into one of the most fascinating artistic minds of the twentieth century Munch was as influenced by the literary and philosophical context of turn of the century Europe as he was by his artistic milieu and by his own admission several of his major works began as literary sketches Beautifully illustrated with drawings paintings and Munch's own photography this book presents an intimate portrait of the artist's life the early death of his mother his childhood illnesses his tragic love affair through his own philosophical and literary pieces Interweaving Munch's artistic and literary experiences these texts provide a commentary on his works and personal philosophy on the works of his contemporaries Van Gogh among others and on the sensibilities of his friends and family Expertly contextualised by Poul Erik Tøjner Munch In His Own Words brings the world of the artist vividly to life **Morphodynamics in Aesthetics** Stefania

Caliandro, 2019-12-12 This book deals with the complexity of art by focusing on the singularity of the work of art Gathering a selection of writings in art theory and semiotics it explores the question of apprehending art from its perceptual aspects to aesthetic comprehension and understanding Theoretical enquiries focus in particular on the dynamics of the perception of forms the semiotic value of colour the aesthetic phenomenon of empathy the function of vision in relation to other senses and its faculty to lead in a substantial way to the embodiment of sense These theoretical points are constantly observed with reference to the analysis of works of art especially from the beginning of the modern era when a renovated psychophysical approach oriented the evolution of contemporary aesthetics Research into art theories sheds light on how differentials in topographic positions dimensions relationships and tones contribute to the arising of forms and colours in perception and affect

the perceiver The essays presented address in different ways the emergence of sense by conceiving it as deeply anchored to the dynamics of perception in addition to the cognitive disposition and knowledge regardless of whether or not the subject artist or beholder is aware of these processes Through in depth analyses identifying to what extent the aesthetic moment builds on perceptual and semiotic processes works of art are revealed to be singularities reflecting the correlation with morphodynamics in the sciences      Мунк Стеффен Квернеланн,2019-03-13
