**The Bengal Law Reports of Decisions of the High Court at Fort William Civil and Criminal in Its Original and Appellate Jurisdictions** ,1873    *Après-coup in Psychoanalysis* Bernard Chervet,2022-12-30 This important book argues that apr s coup a concept that has blossomed in French psychoanalytic discourse not only allows an understanding of how repressed early memories determine adult life and how human sexuality develops but also allows for a richer and wider explanation of our mental structures and thinking The book outlines how apr s coup has been understood and defined by Freud Lacan and other authors considers it in diverse psychoanalytic cultures and explores its resonance in dream work sexual drives thought and the experience of trauma Bernard Chervet considers that the totality of human thought can be approached according to the theory of apr s coup It offers a metapsychological approach to the operation of apr s coup bodily erogeneity and the regeneration of libido Chervet s compelling work argues that the phenomenon of apr s coup allowed for the development of the psychoanalytic theories of causality sexuality temporality memory and trauma Illustrated by clinical vignettes and written by one of the leading theorists on the topic Apr s coup in Psychoanalysis will be an invaluable resource for psychoanalysts in training and in practice

Laura D. Fair,1871    *The Undead Mother* Christina Wieland,2018-03-29 A state of mourning is something that the late twentieth century has been uniquely unable to achieve A culture based on the interchongeability of products and people a throw away culture is not conducive to mourning Inanimate objects have replaced human ideals A culture of virtual reality which finds it difficult to distinguish between the living and the inanimate has been created a culture of the undead This culture is not grounded on human relationships but in the destruction of them In this book Christina Wieland offers the reader a far reaching and devastating critique of masculinity femininity and contemporary culture Drawing inspiration from the work of Melanie Klein the author demonstrates how the Western psyche is based upon denial of the power of the mother and the elevation of the fother into a repressive authoritorion figure This act of universal motricide has wrought havoc throughout Western culture As Wieland graphically illustrates both women and men are denied the opportunity to mourn their separation from the mother but must contend instead with the guilt that surrounds her murder and the ever present terror of her vengeful return as the undead mother Re appraising masculinity and femininity the author re visits a wide and fascinating range of myths fairytale and stories Her critique casts new light on the writings of Freud Klein Kristeva and Irigaray Her vivid presentations of clinical material also show how the undead mother makes her presence felt in the consulting room and the steps which can be taken towards more genuine reparative mourning
