Gould's embrace of music technology, his notions of the ontology of music and musical interpretation, and the place of his thought in Canadian intellectual history. Focusing not only on Gould's writings on music technology but also on those of Marshall McLuhan 1911-1980 and Jean Le Moine 1913-1996, this book provides a fresh perspective on Gould's thinking which was embedded in and keenly alert to the intellectual world outside music. The book also touches on Gould's public reception, his national iconicity in Canadian literature and Hollywood movies. Gould's stardom is discussed as a phenomenon more commonly associated with contemporary popular culture.
