Murder at the Pier of the Apocalypse Dick Kepley, 2003-07-01 **The Life of Benvenuto Cellini** Benvenuto Cellini, 1910 **Imagining Los Angeles** David Fine, 2016-06-01 The literary image of Los Angeles has evolved since the 1880s from promotional literature that hyped the region as a New Eden to contemporary visions of the city as a perplexing sometimes corrupt even apocalyptic place that reflects all that is wrong with America In *Imagining Los Angeles* the first literary history of the city in more than fifty years critic David Fine traces the history and mood of the place through the work of writers as diverse as Helen Hunt Jackson Mary Austin Norman Mailer Raymond Chandler Joan Didion Carolyn See and many others His lively and engaging text focuses on the way these writers saw Los Angeles and used the image of the city as an element in their work and on how that image has changed as the city itself became ever larger more complex and more socially and ethnically diverse This is essential reading for anyone interested in the literature and changing image of Southern California *Come With Me If You Want to Live* Michael Harris, 2023-11-02 If our near future sometimes feels like a dystopian sci fi movie that s because it is In *Come With Me If You Want to Live* The Future as Foretold in Classic Sci Fi Films Michael Harris reveals the hidden in plain sight meanings of the greatest science fiction films of the past fifty years the ways in which they predicted the future that we are increasingly living in but how we can still avoid the worst of what they warned us about The 1970s saw the start of a new wave of science fiction that predicted environmental destruction out of control technology and escalating political crises These were not the fantastical imaginings of filmmakers they were based on rising environmental consciousness and solid scientific research The explanation of why we didn t heed these warnings might be the most important story of our time and now our future Each chapter focuses on a classic sci fi film among them *Blade Runner* *Terminator 2* *12 Monkeys* *Brazil* *Soylent Green* and the *Back to the Future* series these films are used to consider our likely environmental technological and political future But taking sci fi seriously again could help us to regain our power to create different tomorrows guided by practical utopianism and to imagine new science fictions for a better world If you re wondering what the future holds maybe you ve already seen it **Luminous presence** Alexandra Parsons, 2021-11-02 *Luminous presence* Derek Jarman s life writing is the first book to analyse the prolific writing of queer icon Derek Jarman Although he is well known for his avant garde filmmaking his garden and his AIDS activism he is also the author of over a dozen books many of which are autobiographical Much of Jarman s exploration of post war queer identity and imaginative response to HIV AIDS can be found in his books such as the lyrical AIDS diaries *Modern Nature* and *Smiling in Slow Motion* This book fully explores for the first time the remarkable range and depth of Jarman s writing Spanning his career Alexandra Parsons argues that Jarman s self reflexive response to the HIV AIDS crisis was critical in changing the cultural terms of queer representation from the 1980s onwards *Luminous presence* is of great interest to students scholars and readers of queer histories in literature art and film **Revelation** J Vernon McGee, 1995-03-15 Enjoy J Vernon McGee s personable yet
