Transdisciplinary Multicultural Dance Education Mei Hsiu Chan, 2001

Journal of Physical Education, Recreation & Dance, 1995

Dancing the World Smaller Rebekah J. Kowal, 2020

Dancing the World Smaller examines international dance performances in New York City in the 1940s as sites in which dance artists and audiences contested what it meant to practice globalism in mid twentieth century America During and after the Second World War modern dance and ballet thrived in New York City a fertile cosmopolitan environment in which dance was celebrated as an emblem of American artistic and cultural dominance In the ensuing Cold War years American choreographers and companies were among those the U S government sent abroad to serve as ambassadors of American

cultural values and to extend the nation's geopolitical reach. Less known is that international dance performance or what was then called ethnic or ethnologic dance enjoyed strong support among audiences in the city and across the nation as well. Produced in non-traditional dance venues such as the American Museum of Natural History, the Ethnologic Dance Center and Carnegie Hall, these performances elevated dance as an intercultural bridge across human differences and dance artists as transcultural interlocutors. *Dancing the World Smaller* draws on extensive archival resources as well as critical and historical studies of race and ethnicity in the U.S. to uncover a hidden history of globalism in American dance and to see artists such as La Meri Ruth St. Denis, Asadata Dafora Pearl, Primus, Jos Limón, Ram Gopal and Charles Weidman in new light. Debates about how to practice globalism in dance proxied larger cultural struggles over how to reconcile the nation's new role as a global superpower. In dance as in cultural politics, Americans labored over how to realize diversity while honoring difference and manage dueling impulses toward globalism on the one hand and isolationism on the other. Dance Commonwealth and International Conference on Sport, Physical Education, Dance, Recreation, and Health\$ (8th : 1986 : Glasgow, Strathclyde), Taylor & Francis Group, 1986 **Supplemental Analysis and Description, a Multi-Unicultural Inclusion of Mexican Regional Dances for Performing Arts** Paul

Rodriguez, 2017-11-16 Dance, the most ancient of arts, has been an integral part of religious customs and rituals. It is important to the socialization process in civilization. Dance can make a significant contribution to the curriculum with human development and expression. The Visual and Performing Arts Framework, California State Board of Education, 1989, asserted that the dance experience is an ideal instrument for developing and enriching bilingual and multicultural programs because dance is a nonverbal medium. p. 30 Participation in dances of other cultures enables the student to experience feelings, sensations, and ideas associated with those cultures. Students can sense the rich contributions of the multiethnic and multicultural groups past and present that makes the American society. Saxe, 1989, stated, "I have pointed out that democracy in our nation serves a pluralistic society, but that this society needs a cultural currency to function efficiently. Harmon is found in diversity, not sameness. Likewise, democracy is a result of collective sharing among willing participants seeking substance and unity." pp. 199-200 The very complexity and diversity within our American society coheres for the inclusion of multiculturalism in dance education curriculum. Many dances draw upon dances of other cultures. An appreciation of the similarities and distinctions of various cultures is gained through the study of folk dance. Dance reflects the personality and temperament of a people that gives dance its lasting appeal. Likewise, researchers inform us that the brain operates on an emotional bias system. Information that is perceived by the learner as helpful, interesting, rewarding (Hart, 1975; Sagan, 1977) and/or gamey is eventually processed by the brain. In short, we learn what we want to learn. Cognitive functioning is determined by the emotional state of the learner (Galyean, 1981). Many dance movements can signify universal shared meanings. Viewed as a universal language, symbolized through dance, furthers the child's knowledge of the world and its

diverse cultures Exposure to dance helps children understand and appreciate their own culture and the cultures of others Subsequently dance constitutes a mean for helping students learn how to live in peace harmony and mutual respect in a complex pluralistic society The information presented in this book enriches and develops in students the knowledge and appreciation of our multicultural dance heritage Likewise students come to recognize dance as a universal language in world cultures Dance is a nonverbal communicative skill which processes mainly from the appositional hemisphere of the brain Logan 1984 concluded that Dance experiences allow the child to view the aesthetic dimension of movement and heighten kinesthetic awareness and bodily intelligence p 300 Likewise Hawkins 1964 affirmed Dance as a work of art may be described as the expression of man s inner feelings transformed by imagination and given form through the medium of movement p 4 Few efforts in educational systems have designed a comprehensive developmental sequence of dance education for all students before the university or college level Schwartz 1991 stated that Multicultural dance provides a means of understanding cultural differences and helps students understand and clarify their own value systems Educators communicate values to students through their educational structures that in dance cross barriers of language culture and national
