Multicultural Assessment Richard H. Dana,2005-03-23 Psychologists throughout the world are being asked to assess an increasingly diverse clientele immigrants refugees second and third generations still influenced by different cultures and languages and indigenous peoples now moving towards the mainstream Most are ill equipped by training and experience to understand assess and subsequently treat such clients competently and ethically Virtually all agree on the need for culture sensitive assessment but it has proven difficult to provide adequate services despite good intentions and funding Too often clients who may have different worldview and health illness beliefs are marginalized For many reasons standard assessment instruments designed researched and normed on a few groups in the United States the MMPI 2 the Rorschach and the TAT are used as though they were universally applicable Most busy practitioners have little time to investigate alternatives developed for use with one new group or another focused on one issue or another generally in a research context In this book Richard Dana proposes a new model of multicultural assessment practice and points directions for future training and research He presents general culture specific and step by step instrument specific guidelines for the use of the standard armamentarium with different groups Throughout he highlights exciting new interpretive possibilities the traditional tests offer that should be regularly exploited but emphasizes the importance of recognizing psychometric limits Four extended examples of the use of one or several instruments with a specific group offer concrete illustrations of the model in action Multicultural Assessment Principles Applications and Examples constitutes an invaluable new resource for psychologists and for their students and trainees
