Though situated in a concrete educational context be it a Chinese EFL classroom in transition an online MBA course offered in post Communist Romania or a U.S. university utilizing community elders as a pedagogical tool each paper was selected on the universal value of its findings which professionals facing the challenges of 21st century pedagogy will find readily applicable in classrooms worldwide. Since teaching paradigms are strongly culture bound and influenced by national policies as much as international politics this book represents a maximum of diversity by including philosophical texts hands on research results and articles in the critical discourse tradition which reflect a number of contentious issues ranging from the pros and cons of dual language classrooms to potentially racist literature curricula and the intersection of politics and pedagogy in a post September 11 world.
