**computer users** Claudia Prokisch, 2004-04-20 Diploma Thesis from the year 2003 in the subject Business economics General grade 1 3 A Schmalkalden University of Applied Sciences Economics language English abstract The present thesis was prepared in cooperation with the University of the Basque Country in Spain Within a project at its call center CAU I optimized its database that was developed within the software FileMaker Pro 5 0 The call center is located on the campus Guip zcoa in San Sebastian and responsible for all IT matters on the campus Between 12 November 2002 and 22 January 2003 I got an insight into the call center s work improving the existing database This way I was able to make proposals for further optimizations For the improvement of the database I had to learn the software FileMaker Pro that I didn t know before The database improvement was finished with the project on site In contrast to that the analysis and optimization concept for the whole call center went on until the completion of this thesis To avoid to go beyond the scope of this paper the call center analysis that preceded the optimization concept is focused on technical and personnel characteristics The

theoretical foundation in this context is handled in chapter 2 Call Center Specifics In General It provides a view of technological standards and trends as well as characteristics and requirements regarding the human resources which are the most important ones in call centers Chapter 3 then analyzes the call center CAU relating to the theory and describes detailed its original database in FileMaker Pro 5.0 which my work in San Sebastian was focused on The fourth chapter gives suggestions for optimizing the call center work and enhancing its effectiveness Here I tried to stay within the CAU's sphere of influence Otherwise they weren't very useful and not realizable In chapter 5 it is discussed how to put the proposals into action The database modifications and arising problems during their development are explained Finally their effects on the CAU and its work are stated in the summary of chapter 6
