Mural Dancers:

Ballet Dancers in Career Transition Nancy Upper, 2015-10-03 A professional dancer's career like a professional athlete's lasts an average of 10 to 15 years. Once the prime years of physical prowess have passed, retirement is inevitable, but dancers still have many years of adult life ahead. The challenge for many is making the transition into a new career. Motivated by her own career transition, author Nancy Upper interviewed former ballet dancers who made successful transitions into new careers after they stopped performing. Part 1 of the book features dancers who remained in ballet-related careers. Part 2 features four individuals who chose careers outside the field of dance. Part 3 focuses on dancers who pursued non-dance careers that help dancers and other performing artists. Appendices include the marketable qualities dancers develop as a result of their training, career transition tips, transition resources, and a graph mapping the transition process. **The Mural Dancers** Alice Winter, 2000-11-01 **Embodied Dependencies and Freedoms** Julia A.B. Hegewald, 2023-03-20 Have you ever thought about dependencies in Asian art and architecture? Most people would probably assume that the arts are free and that creativity and ingenuity function outside of such reliances. However, the 13 chapters provided by specialists in the fields of Asian art and architecture in this volume show that those active in the visual arts and the built environment operate in an area of strict relations of often extreme dependences. Material artefacts and edifices are dependent on the climate in which they have been created, on the availability of resources for their production, on social and religious traditions which may be oral or written down, and on donors, patrons, and the art market. Furthermore, gender and labour dependencies play a role in the creation of the arts as well. Despite these strong and in most instances asymmetrical dependencies, artists have at all times found freedoms in expressing their own imagination, vision, and originality. This shows that dependencies and freedoms are not necessarily strictly separated binary opposites but that at least in the area of the history of art and architecture in Asia, the two are interconnected in what are often complex and multifaceted layers. *Graphic Modernism* Art Institute of Chicago, 2003 This exhibition catalog highlights a recent gift of works on paper to the Art Institute of Chicago from the Gecht family, longtime Chicago collectors. The catalog comprises 135 drawings, prints, and sculptures from the collection, all of which embody a broad definition of Modernism. The book spans two centuries and contains artists such as Cézanne and Van Gogh as well as Mark Rothko and Philip Guston. Toulouse-Lautrec, Matisse, and Picasso form the backbone of the collection, with nearly 30 works of art apiece. Suzanne Folds McCullagh, curator of prints, drawings, Art Inst of Chicago, provides a short introductory essay that tracks the evolution of the collection. Authored by a bevy of contributors, the well-written entries maintain a consistent tone and quality and strike a good balance between biographical information and interpretations of the work of art itself. While the Gecht collection is certainly quite a boon for the institute, it is not comprehensive enough in itself to make the catalog essential for all art libraries. It does, however, belong on library shelves with strong modern art and graphics collections. Kraig A. Binkowski, Delaware Art Museum, Wilmington. 135 colour illustrations **A HISTORY OF**
