*The PMM's Prompt Playbook* David E. Sweenor, 2025-02-18 Product marketers face mounting pressure to deliver more content campaigns and insights with limited time and resources Unfortunately most are using elementary prompts and struggle to incorporate generative AI into their daily workflows in ways that save time and drive impact As a marketing leader with 20 years in data and analytics I've tested hundreds of AI workflows and have identified what actually works for B2B product marketing The PMM's Prompt Playbook Mastering Generative AI for B2B Marketing Success distills that experience into practical workflows that help you better understand customer needs build rich personas analyze competitors enable sales teams and plan product launches There are no theoretical discussions about AI potential just proven prompt driven workflows that cut research time accelerate content creation and improve marketing outcomes Each chapter walks through specific workflows that are refined through real world applications You'll learn how to extract insights from customer feedback create targeted content for different buyer personas build compelling product narratives and accelerate launch planning This is a practical guide for working smarter Want to analyze a competitor's positioning in minutes instead of hours Need to generate targeted content for five different personas Looking to speed up launch planning without sacrificing quality The workflows in this playbook show you how Written for busy product marketers who need proven solutions this guide helps you deliver quick wins that drive real business impact Every prompt and process has been tested and refined through hands on experience in B2B technology marketing Remember it's not the tech that's tiny just the book

**Creativity and Critique in Digital Learning and Teaching** Jacqueline Baxter, Helen Selby-Fell, Andrew Gilbert, 2025-04-07 This open access edited collection is aimed at educators student services staff and university management It is timely in adopting a forward facing view of various aspects of digital teaching and learning in business and law and provides a vital resource for those designing managing or thinking about digital learning in both fields

**New Horizons in Artificial Intelligence in Libraries** Edmund Balnaves, Leda Bultrini, Andrew Cox, Raymond Uzwysyn, 2024-12-16 There is increasing use of AI technologies in many aspects of library operations and types of libraries This ranges across public national research academic and special libraries and includes public and reference services automated classification special and research collections archives and customer service through chatbots and discovery systems Vendors are also adding elements of AI in new and existing library products including search and discovery and research platforms and recommender systems The role and impact of AI present opportunities and challenges and open future possibilities IT plays a significant role in the development and use of AI technologies but ethical considerations and wider organizational thinking must also play an equally significant role AI's uses can have considerable impact and possible unintended consequences on library operations and services and wider societal implications All of this is considered in this both pragmatic and wider philosophical text This publication provides an opportunity to explore developing new library AI paradigms including present

use case practical implementation and opportunities on the horizon as well as current large ethics questions and needs for transparency scenario planning considerations and implications of bias as library AI systems are developed and implemented presently and for our collective future
