Emotional Intelligence Daniel Goleman, 2005-09-27 | BESTSELLER The groundbreaking book that redefines what it means to be smart with a new introduction by the author. A thoughtfully written, persuasive account explaining emotional intelligence and why it can be crucial. USA Today Everyone knows that high IQ is no guarantee of success, happiness, or virtue, but until *Emotional Intelligence*, we could only guess why. Daniel Goleman's brilliant report from the frontiers of psychology and neuroscience offers startling new insight into our two minds—the rational and the emotional—and how they together shape our destiny. But why is emotional intelligence important? Drawing on groundbreaking brain and behavioral research, Goleman shows the factors at work when people of high IQ flounder and those of modest IQ do surprisingly well. These factors, which include self-awareness, self-discipline, and empathy, add up to a different way of being smart—and they aren't fixed at birth. Although shaped by childhood experiences, emotional intelligence can be nurtured and strengthened throughout our adulthood with immediate benefits to our health, our relationships, and our work.
