*The Ethics of Digital Literacy* Kristen Hawley Turner,2019-12-31 The digital era has brought many opportunities and many challenges to teachers and students at all levels Underlying questions about how technologies have changed the ways individuals read write and interact are questions about the ethics of participation in a digital world As users consume and create seemingly infinite content what are the moral guidelines that must be considered How do we teach students to be responsible ethical citizens in a digital world This book shares practices across levels from teaching elementary students to adults in an effort to explore these questions It is organized into five sections that address the following aspects of teaching ethics in a digital world ethical contexts ethical selves ethical communities ethical stances and ethical practices

**Digital Literacies for Learning** Allan Martin,Dan Madigan,2006 In the 21st century digital tools enable information to be generated faster and in greater profusion than ever before to the point where its extent and value are literally beyond imagining Such quantities can only be meaningfully addressed using more digital tools and thus our relationship to information is fundamentally changed This situation presents a particular challenge to processes of learning and teaching and demands a response from both information professionals and educators Enabling education in a digital

environment means not only changing the form in which learning opportunities are offered but also enabling students to survive and prosper in digitally based learning environments This collection brings together a global community of educators educational researchers librarians and IT strategists to consider how learners need to be equipped in an educational environment that is increasingly suffused with digital technology Traditional notions of literacy need to be challenged and new literacies including information literacy and IT literacy need to be considered as foundation elements for digitally involved learners Leading international experts from the USA Canada Australia New Zealand South Africa Mexico and throughout Europe contribute to the debate and Hannelore Rader Librarian and Dean of the University Libraries University of Louisville Kentucky provides the foreword The book is in two parts In Part 1 Literacies in the Digital Age the contributors analyse how digital technologies have enabled transformative change in the ways in which learning can be constructed and discuss the nature of the new literacies that have emerged in this new virtual and e learning environment In Part 2 Enabling and Supporting Digital Literacies the contributors go on to consider the ways in which digital literacies can be made available to learners and how these literacies are being relocated in a more student centred environment within the broader perspective of learning Readership This book takes the issues raised in the successful Information and IT Literacy also co edited by Allan Martin into a broader context It is essential reading for all information professionals and educators involved in developing strategies and practices for learning in a digital age      *Technology In Action Complete, Global Edition* Alan Evans,Kendall Martin,Mary Anne Poatsy,2018      *Digital Literacy in the Classroom - Book 1* Neelam Parmar,2018 Book 1 for Year 1 Year 2 aims to develop digital literacy competencies in areas of computational thinking and programming communication and collaboration with creativity and the study of computer networks and productivity It supports teachers by providing step by step instructions and activity ideas based on whole class group paired and individual experiences It also encourages children to recognise the importance of staying safe online and creating a positive digital identity whilst using the internet      Essential Skills for Digital Literacy ,2004      *Best Practices in Teaching Digital Literacies* Evan Ortlieb,Earl H. Cheek Jr,Peggy Semington,2018-08-22 This edited volume provides a practical framework for teacher education programs to develop K 12 students digital literacies It serves as a set of best practices in teaching digital literacies that promotes access to research based pedagogies for immediate implementation in their classrooms      **How and Why to Read and Create Children's Digital Books** Natalia Kucirkova,2018-12-03 How and Why to Read and Create Children s Digital Books outlines effective ways of using digital books in early years and primary classrooms and specifies the educational potential of using digital books and apps in physical spaces and virtual communities With a particular focus on apps and personalised reading Natalia Kucirkova combines theory and practice to argue that personalised reading is only truly personalised when it is created or co created by reading communities Divided into two parts Part I suggests criteria to evaluate the educational quality of digital books and practical strategies for their use in the classroom Specific attention is paid to the ways in which

digital books can support individual children's strengths and difficulties digital literacies language and communication skills Part II explores digital books created by children their caregivers teachers and librarians and Kucirkova also offers insights into how smart toys tangibles and augmented virtual reality tools can enrich children's reading for pleasure How and Why to Read and Create Children's Digital Books is of interest to an international readership ranging from trainee or established teachers to MA level students and researchers as well as designers librarians and publishers All are inspired to approach children's reading on and with screens with an agentic perspective of creating and sharing Praise for How and Why to Read and Create Children's Digital Books This is an exciting and innovative book not least because it is freely available to read online but because its origins are in primary practice The author is an accomplished storyteller and whether you know as yet little about the value of digital literacy in the storymaking process or you are an accomplished digital player this book is full of evidence informed ideas explanations and inspiration Liz Chamberlain Open University At a time when children's reading is increasingly on screen many teachers parents and carers are seeking practical straightforward guidance on how to support children's engagement with digital books This volume written by the leading expert on personalised e books is packed with app reviews suggestions and insights from recent international research all underpinned by careful analysis of digital book features and recognition of reading as a social and cultural practice Providing accessible guidance on finding choosing sharing and creating digital books it will be welcomed by those excited by the possibilities of enthusing children about reading in the digital age Cathy Burnett Professor of Literacy and Education Sheffield Hallam University

Reading Workshop 2.0 Frank Serafini, 2015 As reading teachers how do we deal with the massive shifts that digital literacy is creating We can't abandon what we know works to keep up with the latest online literacy fads Yet we need to prepare readers for a world of digital content Reading Workshop 2.0 gives us teaching that puts reading for meaning first while also balancing the need for kids to become sophisticated users of books as well as online reading resources This book writes Frank Serafini is designed to help teachers organize their reading workshops in order to take advantage of the latest technologies With his guidance you'll bring more digital reading into your teaching without sacrificing sound instructional principles or practices Reading print shares four essential processes with digital reading accessing and navigating archiving and sharing commenting and discussing and interpreting and analyzing Frank introduces important well established digitally based resources that further these processes while his lesson ideas transfer learning from classroom to real world digital reading If it doesn't help children develop as readers writes Frank Serafini it doesn't matter how shiny the new object is With Reading Workshop 2.0 you'll help students with print while also helping them use online resources and technologies as they are intended to make sense of texts more deeply effectively and efficiently
