Global Enterprise Management, Volume II A. Camillo, 2015-06-03 The ongoing progress of globalization has created a new need in multinational and international companies for managers who have the skills and competencies to be rotated anywhere in the world. While most books addressing global management have focused on the practitioner experience theory or academic knowledge relevant to one region or country, *Global Enterprise Management* unites all these approaches in a practical framework designed to provide students, educators, and practitioners with the skills to succeed in the global managerial landscape. Inspired by his 35 years in international hospitality management, Camillo brings together an interdisciplinary team to break down the challenges facing managers in global companies, including supply chains, business ventures, technology, accounting, marketing, and human resources. A collection of real-world case studies grounds theory in contemporary practice and directs the conversation toward the future.

Global Sources Electronics ,2007 **Hardware Retailing** ,2009 **Feminist Political Ecology and the Economics of Care** Christine Bauhardt,Wendy Harcourt,2018-12-07 This book envisages a different form of our economies where care work and care full relationships are central to social and cultural life It sets out a feminist vision of a caring economy and asks what needs to change economically and ecologically in our conceptual approaches and our daily lives as we learn to care for each other and non human others Bringing together authors from 11 countries also representing institutions from 8 countries this edited collection sets out the challenges for gender aware economies based on an ethics of

care for people and the environment in an original and engaging way. The book aims to break down the assumed inseparability of economic growth and social prosperity and natural resource exploitation while not romanticising social material relations to nature. The authors explore diverse understandings of care through a range of analytical approaches, contexts and case studies and pays particular attention to the complicated nexus between re productivity, nature, womanhood and care. It includes strong contributions on community economies, everyday practices of care, the politics of place and care of non-human others as well as an engagement on concepts such as wealth, sustainability, food sovereignty, body politics, naturecultures and technoscience. Feminist Political Ecology and the Economics of Care is aimed at all those interested in what feminist theory and practice brings to today's major political, economic and environmental debates around sustainability alternatives to economic development and gender power relations.
