Pacific Navigation And Voyaging:

Pacific Navigation and Voyaging Ben R. Finney, 1976 *Indigenous Navigation and Voyaging in the Pacific* Nicholas J. Goetzfridt, 1992-01-27 How have Pacific Islanders voyaged across the vast ocean around them and navigated their small crafts from one distant place to another for thousands of years This reference guide describes the literature on indigenous navigation and voyaging in the Pacific The annotated bibliography covers journal articles and books written in several languages including English German Japanese French Spanish and Dutch pointing to materials of both recent and early origin The entries are arranged alphabetically by author under Pacific General Polynesia Micronesia and Melanesia chapters Indexes to authors geographic areas and to subjects provide the reader with easy access to the entries and to a wealth of interesting research on a complex subject with many perplexing questions *Polynesian Seafaring and Navigation* Richard Feinberg, 2003-03-24 After fourteen months of field research in 1972 73 and an additional four months of field work with the Anutans in the Solomon Islands capital of Honiara in 1983 Richard Feinberg here provides a thorough study of Anutan seafaring and navigation In doing so he gives rare insights into the larger picture of how Polynesians have adapted to the sea This richly illustrated book explores the theory and technique used by Anutans in construction use and handling of their craft the navigational skills still employed in interisland voyaging and their culturally patterned attitudes toward the ocean and travel on the high seas Further the discussion is set within the context of social relations values and the Anutan s own symbolic definitions of the world in which they live *Reinterpreting Exploration* Dane Kennedy, 2013-12-09 This book provides a fresh and accessible introduction to recent debates about European exploration s role in the making of the modern world It challenges celebratory narratives of exploration concentrating instead on its contribution to imperial and scientific agendas and its dependence on indigenous agents Texts and Contexts Doug Munro, Brij V. Lal, 2005-11-30 *Texts and Contexts* is concerned with the development of Pacific Islands history as a specialization in its own right Specifically this volume examines the foundational texts that pioneered and consolidated the new subdiscipline and served as the building blocks and stepping stone for further developments in the field Thirty five texts all of which represent defining points in the development of Pacific Islands historiography are examined Much more than retrospective appraisals of the foundational texts the individual chapters consider a text or complimentary texts within the context of the time of writing and gauge what ongoing influence they exerted In some cases they suggest how a particular text has been superseded by subsequent work that breaks new conceptual ground in the ongoing process of revisionism Contributors Chris Ballard on Gavin Souter Ivan Brady on Greg Denning I C Campbell on Norma McArthur Bronwen Douglas and Doug Munro on H E Maude and Dorothy Shineberg Michael Goldsmith on Marshall Sahlins David Hanlon on Francis X Hezel K R Howe on Andrew Sharp and David Lewis Brij V Lal on K L Gillion and Peter Corris Hugh Laracy on Niel Gunson and Ta unga Lamont Lindstrom on Peter Worsley and Peter Lawrence Doug Munro on Douglas L Oliver R P Gilson J W Davidson and K R Howe Vincent O Malley on

Historical Dictionary of the Discovery and Exploration of the Pacific Islands Max Quanchi, John Robson, 2005-10-18 The South Seas as this region used to be called conjured up images of adventure belles and savages romance and fabulous fortunes but the long voyages of discovery and exploration of the vast Pacific Ocean were really an exercise in amazing logistics navigation hard grit shipwreck and pure luck The motivations were scientific and geographic but at the same time nationalistic and materialistic A series on global exploration and discovery would not be complete without this book by Quanchi and Robson It is ambitious and informative and includes the familiar names of Laperouse Bougainville Cook and Dampier as well as the intriguing stories of the Bounty Mutiny scurvy and the mysterious Northwest Passage Terra Australis Ignotia and Davis Land There are entries on first contacts ships navigational instruments mapping and botany The scene is carefully set in the introduction the chronology spans several centuries and the extensive bibliography offers a guide to further reading There are more than just dry facts in this book It has a whiff of salt air the clash of empires cross cultural beach encounters and personal adventure **Pacific 2000** Christopher Moore Stevenson, Georgia Lee, Frank J. Morin, 2001

Encyclopaedia of the History of Science, Technology, and Medicine in Non-Western Cultures Helaine Selin, 2013-11-11 The Encyclopaedia fills a gap in both the history of science and in cultural studies Reference works on other cultures tend either to omit science completely or pay little attention to it and those on the history of science almost always start with the Greeks with perhaps a mention of the Islamic world as a translator of Greek scientific works The purpose of the Encyclopaedia is to bring together knowledge of many disparate fields in one place and to legitimize the study of other cultures science Our aim is not to claim the superiority of other cultures but to engage in a mutual exchange of ideas The Western academic divisions of science technology and medicine have been united in the Encyclopaedia because in ancient cultures these disciplines were connected This work contributes to redressing the balance in the number of reference works devoted to the study of Western science and encourages awareness of cultural diversity The Encyclopaedia is the first compilation of this sort and it is testimony both to the earlier Eurocentric view of academia as well as to the widened vision of today There is nothing that crosses disciplinary and geographic boundaries dealing with both scientific and philosophical issues to the extent that this work does xi PERSONAL NOTE FROM THE EDITOR Many years ago I taught African history at a secondary school in Central Africa *Pacific Basin and Oceania* Gerald Walton Fry, Rufino Mauricio, 1987 **Breadfruit** Russell Fielding, 2025-12-02 Breadfruit trees are staples of the tropics bearing cantaloupe sized green skinned fruits whose taste and texture resemble potatoes More than three thousand years ago breadfruit fueled the Pacific voyages of discovery that settled islands throughout Oceania In the late eighteenth century the British expedition that ended with the mutiny on the Bounty aimed but failed to introduce breadfruit to the West Indies as food for enslaved African laborers on sugar

plantations A later voyage resulted in the fruit's widespread distribution and complicated role within modern Caribbean food cultures In recent years breadfruit has been touted as a tool for sustainable development and as a superfood with both health benefits and culinary versatility Russell Fielding tells these stories and many others exploring breadfruit's fascinating global history and varied present day uses Bringing together extensive research and vivid travelogues including learning directly from local agriculturists chefs scientists and holders of traditional knowledge he provides an immersive narrative of breadfruit's contributions Fielding argues that breadfruit's history comprises two journeys first from its origins in Southeast Asia across the Pacific and second its transplantation to the Caribbean Today a third journey is taking place one that is spreading breadfruit throughout the world Engagingly written and compellingly argued this book draws timely lessons from breadfruit's past to forecast its future potential
