Contemporary Art in Indonesia Wulandani Dirgantoro, 2025-10-01 While Indonesian contemporary art is currently on the rise on the international art scene there hasn't yet been an in-depth study of the works of Indonesian women artists and the feminist strategies they employ within the art world. This book fills that gap presenting the first comprehensive study of feminisms and contemporary art in Indonesia using feminist readings to analyse the works of Indonesian women artists historically and today illuminating the sociocultural contexts in which they have worked and offering a nuanced understanding of local feminisms in the nation.

The Art of Environmental Activism in Indonesia Edwin Jurriëns, 2023-04-24 This book analyses the intersections between contemporary art and environmental activism in Indonesia. Exploring how the arts have promoted ecological awareness from the late 1960s to the early 2020s, the book shows how the arts have contributed to societal change and public and political responses to environmental crises. This period covers Indonesia's rapid urban development under the totalitarian New Order regime 1967-1998 as well as the enhanced freedom of expression, alternative development models and environmental problems under the democratic governments since 1998. The book applies the concept of artivism to refer to the vital role of art in activism. It seeks to identify and contextualise both the potential and limits of environmental artivism in Indonesia, a country whose vibrant art scenes and monumental social transformations provide a productive laboratory for exploring the power of creativity as a social and political change agent. It provides a comprehensive overview of contemporary art from Indonesia with an in-depth analysis of artists who seek to address and find solutions for some of the most pressing environmental issues of our times. With its detailed empirical approach to environmental art from Southeast Asia, this project fills in an important gap in the literature on art and activism. It is aimed at academics, students, artists, curators, policymakers, activists and general readers with an interest in the environment, art history and Indonesian culture, society and politics.
